CONGRATULATIONS, ANGELA BURNETTE !

Some things have to be dug for; some things have to be waited for; some things have to be called for; and some things have to be worked for. But there are other things that have to be prayed for. Many of the highest values and greatest riches of life lie behind the door to the Great Vault that will open only when you insert your key of prayer.

God will take you as high as He wants you to go; He will make you whatever He wants you to be; and He will lift you above your own horizon to fulfill His true vision for you. Follow Him. "With God, all things are possible" (Matthew 19:26).

Be
Be understanding to your enemies.
Be loyal to your friends.
Be strong enough to face the world
each day.
Be weak enough to know you cannot do
everything alone.
Be generous to those who need your help.
Be frugal with what you need yourself.
Be wise enough to know that you do not
know everything.
Be foolish enough to believe in miracles.
Be willing to share your joys.
Be willing to share the sorrows of others.
Be a leader when you see a path others
have missed.
Be a follower when you are shrouded by
the mists of uncertainty.
Be the first to congratulate an opponent

Be the last to criticize a colleague who
fails.

Be loving to those who do not love you,
and they may change.

Debutante Corisna Chanté Carter

This is a time of tremendous change in your life, but it is only the beginning. Change is a way of life, and it is important to use it as an occasion for improvement. Don't let circumstances dictate your Disposition, Development, or Destination. They will either defeat you, or you will overcome them. Your strength and determination - - not their impact - - - will decide which.

GOOD LUCK CORISNA

My family and I are very blessed to have our niece, Corisna Carter as a chosen candidate for your scholarship. FOOTPRINTS

O... (text obscured)

Across the sand, the footprints of many people had been left behind. It was a beautiful scene, and I felt a sense of peace and tranquility. The sun was low on the horizon, casting a warm glow over the beach. The sound of waves breaking on the shore was soothing and calming.

(text obscured)

The footprints led me to the water's edge, where I saw a small, white object. It was a piece of driftwood, and it looked like it had been there for a long time. I picked it up and examined it closely. It was smooth and polished, and it had a unique shape. I felt a sense of wonder and awe as I held it in my hand.
