technology program for low-income and minority youth. She and others in the district conducted a fourteen week Introductory to Computers pilot during 08-09, but there were no personnel funds available to continue the program.

2. Purchasing up-to-date technology equipment: Very few of the children have computers at home, according to assistant superintendent Gayle Jeffries. "We have computer labs in all of the elementary schools; however, the computer hardware is old and the kids need training…"

▪ An example of an activity is a Photo Essay unit that will allow for students to learn to use digital cameras to communicate about topics that matter to them under the guidance of an educational mentor assigned by the University in collaboration with the school district.

3. We propose that one emphasis be upon helping young students to learn research skills. They will be guided by McNair Scholars and other college students that will be jointly trained by University staff and school district personnel. Furthermore, this model can also be expanded into the Champaign Unit 4 School District. We have three computer labs in our department, but our computers are three years old.

Besides providing an eager and talented array of undergraduate tutors and mentors, other ways in which OMSA can contribute:

▪ We have staff members who have several years of experience teaching technology.

▪ Connections with the Urbana, Champaign and Rantoul public schools through our 42 year old Upward Bound Program. We serve more than eighty 9th through 12th graders annually through a year round program and an intensive comprehensive eight week summer program. UB provides an excellent organizational structure that could be greatly enlarged and expanded under this grant.

▪ OMSA will assist in identifying recent minority graduates who can serve as professional mentors.

Finally, I am willing to join an oversight committee to assist in evaluating your program. I was a Microsoft Mentor for ten years through a partnership with the U.S Department of Education and the University of Washington. Please let me know if I can provide any additional support.

Sincerely,

Michael L. Jeffries,
Associate Dean of Students and
Director Minority Student Affairs and
Federal TRIO Programs

Broadband Technology Opportunities Program
1401 Constitution Ave, NW
Washington, DC 20230

Dear Colleagues:

I am pleased to write in support of the UC2B project on behalf of the Computer Science and Information Technology (CSIT) Department at Parkland College. The Parkland CSIT Department offers degrees in several IT areas, including Networking, Digital Media, Database Development, Software Development, and Office Professional. Our graduates are highly skilled individuals who are hired for internships leading to permanent employment with local small, mid-size, and large companies, such as Volition, Precision Graphics Services, Wolfrem Research, Frasca International, Motorola, Simplified Computing, Area Wide Technologies, Carle Clinic and Hospital, Christie Clinic, the cities of Champaign and Urbana, Communication Data Group, Archer Daniels Midland, and many others.

Parkland is actively involved in reaching out to minority and under-represented individuals in an attempt to narrow the digital divide for these populations. We have received grants from NSF, AT&T/Ameritech, and the Illinois Department of Commerce and Economic Opportunity for the development and implementation of educational models and programs to recruit, train, and help develop job skills for under-represented populations in information technology fields. We have collaborated with many local organizations, such as the University of Illinois at Urbana-Champaign, the Don Moyers Boys and Girls Club, and the Urban League of Champaign County, to provide workshops/training in IT to those members of the Champaign-Urbana community that have very little knowledge of digital technology.

It is our mission and passion to reach out to members of our community who have little exposure to technology. It is our hope that the educational and training models we have developed and implemented in the community will be fully utilized. The UC2B project will help make that vision a reality by allowing us to bring enhanced learning opportunities to individuals we often are unable to serve using traditional educational methodologies.

Sincerely,

Thomas R. Ramage

Broadband Technology Opportunities Program (BTOP)
Department of Commerce
Washington, DC

Dear Colleagues at BTOP:

I am writing on behalf of 90.1 WEFT, a community radio station, to support the Urbana Champaign Big Broadband (UC2B) project.

WEFT-FM is a non-commercial radio station locally owned by Prairie Air, Incorporated, a not-for-profit organization. Our mission is to provide the diverse communities of radio listeners in East Central Illinois an accessible, responsible, and responsive radio alternative.

We are a primarily volunteer organization struggling to find our space in the evolving media environment. Improved access to high-speed Internet and the accompanying computing and training facilities proposed in this submission would support us in a number of our activities and goals, such as:

- live webstreaming of our programming
- downloading content from music and informational content providers (which is becoming increasingly prevalent, as many of our content providers move away from providing physical media, such as CDs)
- supporting archiving and on-demand provision of our original content to others
- using social networking to communicate with our listeners and supporters.

By having this infrastructure and the technical support for it, WEFT would be better able to serve the needs of our community.

Thank you very much.

Sincerely,

R Dossett

Raeann Dossett
Chair, WEFT Board of Directors

Broadband Technology Opportunities Program
Department of Commerce
Washington, DC

Dear BTOP Selection Committee,

We are pleased to offer this letter of enthusiastic support for the Urbana-Champaign Big Broadband proposal in the Broadband Technology Opportunities Program. We know that it will have far-reaching positive effects on our community, with increased opportunities and educational outcomes for citizens currently underserved in a world where network access has become fundamental.

WILL is the public television and radio station serving Champaign-Urbana and communities throughout central Illinois. We've been one of the top small market PBS and NPR stations for some decades, and have long-standing educational programs and partnerships throughout our communities and schools. The University of Illinois was instrumental in establishing the National Association of Educational Broadcasters, which led directly to the creation of public broadcasting via the Public Broadcasting Act of 1967. We aim to continue this tradition of innovation and public service.

We have also seen the impact of our work in bridging the digital divide, both in enabling access to computers and the internet, and in training people how to use them. For the past eight years, our Youth Media Workshop program has worked with at-risk middle and high school students to develop digital literacy, media production, and storytelling skills. The transformation in these young people is in many cases profound. Kids on the verge of dropping out have become honor roll students bound for college. We work in partnership with many of the participants in the Champaign-Urbana BTOP proposal, including the University of Illinois Graduate School of Library and Information Science, the Cities of Champaign and Urbana, and the area School Districts. With the proposed funding for Community Technology Centers and additional training, we are convinced that this project can greatly expand the positive impacts we've seen and create new opportunities for our underserved citizens and communities.

From our perspective this comes at a fortuitous time, as our work and that of other public broadcasters on digital education services is beginning to bear fruit. We are working to digitize and make accessible decades of analog archives from public TV and radio productions spanning decades of American history and culture. The record of our times is reflected in these audio and video archives, and we are making them accessible for use as educational materials. WILL also publishes some 40 hours of born-digital content online every week for public and educational use. The expansion of broadband access is critical for us to deliver our content and educational services.

Illinois Public Media also proposes creation of a center for sustainable journalism. In public-private partnership between the University of Illinois, a variety of private companies engaged in community transformation and traditional local media outlets, this technology center would serve the public interest by training high school and college students and community thought leaders in the use of new media for informing and engaging the citizenry. The center would use our Youth Media Workshop model for training and engagement. Mentors would guide the process as students research and report on issues of community adaptability and sustainability. In addition to receiving timely, relevant and accurate information, residents would have the opportunity through new media, social networking, and traditional engagement practices to be interactively involved in shaping the future of their community. The community as a whole would benefit as existing media utilize the center to adopt new media models - increasing their ability to sustain and enhance good journalism practices and community impact as legacy delivery models decline. Of particular benefit is the ability through the center to expose the value of involving underrepresented constituencies. This would help to shape public policy by giving them voice in community transformation decisions, such as communication, energy, transportation, and community health policy initiatives supported by the center.

Universal access to our culture and history is now dependent upon effective access to the internet via broadband connections. Addressing connectivity and digital literacy has become central to our mission as educational broadcasters. Our partnerships and services to schools result in measurably improved outcomes in educational achievement and economic opportunity in the underserved populations of Champaign-Urbana and throughout central Illinois. We intend to extend and deepen that impact through our participation in the Urbana-Champaign Big Broadband initiative. With support from this grant, we and our partners are ready to work.

Sincerely,

Jack Brighton

August 10, 2009

Broadband Technology Opportunities Program
Department of Commerce
Washington, DC

Dear Colleagues:

The Mo' Betta Music Program is excited to hear of the UC2B proposal submission. The Mo' Betta Music Program is a collaborative program between the Office of the Vice Chancellor for Public Engagement and a community based volunteer organization. Mo' Betta Music seeks to provide individual, small, and large group instruction to local area underrepresented students in instrumental and vocal music. The Program is offered twice a week during the after school hours at a local church facility. Instructors include university faculty and staff and graduate students. The Program utilizes the idioms of jazz and popular music to teach students. The goal is to offer creative and constructive outlets to underrepresented students so that they can achieve at high levels in their respective school bands and choral groups.

Mo' Betta Music would use the community labs created by the broadband initiative to access on-line musical examples, to produce and publish their own original music on-line, and to communicate with other similar musical youth organizations throughout the country and perhaps the world. High speed broadband would increase the quality of the musical examples and videos currently found on the internet.

Our practice facility is already a community lab, but access to the internet is cumbersome, which makes it harder to utilize the web and its resources.

For these reasons, the Mo' Betta Music Program is very enthusiastic about the UC2B proposal and is highly supportive of it.

Sincerely,

Nathaniel C. Banks
Director, Campus Community Interface Initiatives
Coordinator Mo' Betta Music Program

To Whom It May Concern:

I write today to endorse the establishment of a broadband network to increase the availability of the Internet to the underserved in our community. As our world continues to move into a heavily technology based arena, our community must do so as well. As the Arts Editor for Champaign-Urbana, an online magazine providing an alternative voice for our community, I believe the need for public broadband will help bridge the divide in our community and bring much needed 21st century access to those without the ability or the funds to do so. This access will most definitely provide and bring much needed money, jobs, and technology to our community.

Best,

Justine Bursoni

Arts Editor at SmilePolitely.com

Broadband Technology Opportunities Program (BTOP)
Department of Commerce
Washington, DC

Dear colleagues at BTOP:

I am writing on behalf of the Regional Inquiry Studio (RIS) to support the Urbana Champaign Big Broadband (UC2B) project. My organization is a newly-established cultural institution and residency program with the goal to look critically at intersecting landscapes of small towns, rural communities and regions in the Midwest. We serve primarily artists, community-based researchers and organizers. Our current technology use relies on the personal equipment of our volunteers because we have few financial resources, but there is so much more that we would like to do. If we and our partners had access to a community media lab with equipment for video production and other tools proposed in this submission, we could readily generate projects that amplify previously untold narratives and layer multiple and possibly contradictory visions of this place. By having this proposed infrastructure and the social networks to support it, RIS will join in the creation of new knowledge, discussions and regional collaborations through the production of projects, workshops, tours, and exhibitions.

Thank you for your attention.

Sincerely,
Sarah Ross
Director

Broadband Technology Opportunities Program
National Telecommunications and Information Administration
U.S. Department of Commerce
1401 Constitution Avenue, NW
HCHB, Room 4812
Washington, DC 20230

Dear Broadband Technology Opportunities Program:

I am writing to express my support of the Urbana-Champaign Big Broadband (UC2B) project to provide high speed connectivity via fiber-optics to all areas of our community.

This project will make available Internet connectivity to the unserved, underserved and vulnerable populations in the community. In addition to the delivery of Internet services the implementation and on-going support for the project will provide for economic development opportunities in our community.

Busey Bank has an interest in this project for several reasons. Providing wider use of the Internet allows more of our customers to interact with us electronically keeping their cost of acquiring services lower. Additionally, Busey looks forward to being able to purchase Big Broadband services over the UC2B network to improve our connectivity and help in managing our expenses.

This project is a great example of the collaboration between the city governments, the University of Illinois, the school districts and local businesses for the good of the community.

The Broadband Technology Opportunities Program funding of the UC2B project will provide Internet services for those in our community who heretofore would be unable to have access. In addition, stimulating the local economy through the implementation of the project and allowing local businesses to take advantage of improved connectivity for customer access and internal operations are important benefits.

Your serious consideration of providing funding for the UC2B project will be most appreciated.

Sincerely,

Donald J. Schlorff
Executive Vice President

Broadband Technology Opportunities Program
Department of Commerce
Washington, DC

Dear colleagues:

I am writing to explain my participation in the UC2B Infrastructure, Public Computing and Sustainability project. Ploughman Analytics is a locally-owned analytics consultancy, providing geographic information systems, business intelligence, operations research, and knowledge management services to the agriculture and energy sectors.

Early information about crop production and conditions in the United States and elsewhere can be of tremendous value to society. This information helps markets find efficient prices for agricultural commodities, and these prices facilitate planning and decision making for individuals, firms, and governments as they respond to changes in production and consumption of commodities used for food, feed, fuel, and fiber. Acquiring, analyzing, and disseminating information about agricultural production from a variety of sources, including instruments on satellites, is facilitated by high bandwidth/low cost data networks. At present, the cost and magnitude of currently available bandwidth limits our analytics practice, and constrains our research and development goals in this area.

High bandwidth/low cost data networks such as those planned by UC2B would remove constraints to our practice and research and development efforts. It would facilitate more rapid growth of our business, and could contribute to the societal benefits of advanced methods in assessing crop production and conditions. Our participation will be to seek to purchase higher speed lower cost bandwidth from the businesses who will supply "last mile" from the "middle mile" fiber rings UC2B will build. Without high bandwidth/low cost data networks local businesses are disadvantaged relative to those located on big broadband elsewhere in the US or the world.

U.S. Department of Commerce,

This letter is to inform you Consolidated Communications, Inc. (CCI) is in support of the Urbana-Champaign Big Broadband (UC2B) project that will be reviewed and awarded by the National Telecommunications and Information Administration.

Consolidated Communications, Inc. is an Independent Telephone Company (ILEC) that has served Central Illinois since 1894. CCI is a full services IP based network company that supports video services, high speed DSL, and IP voice services. If the UC2B project is funded by NTIA, CCI would highly consider becoming a full services IP service provider for the project. We are in full support of increasing broadband services in the Champaign / Urbana area.

Thank you for your time and if you have any questions, please feel free to contact me at 217-234-5600.

Sincerely,

Michael Smith

Dear Sir/Madam;

I am writing in regard to the University of Illinios at Urbana-Champaign's involvement in the Urbana-Champaign Big Broadband Consortium. While this critical infrastructure project will provide a great benefit to the campus and local community, it would have been impossible for the university to pursue this project without federal support. During four of the last five years, the Urbana-Champaign campus fully expended its unrestricted operating funds. As the campus budget officer, I certify that without federal grant assistance, it would be impossible for the campus to implement this project.

Please let me know if you require additional information.

Cordially,

Michael Andrechak

47. Historical Financial Statements:

The Urbana-Champaign Big Broadband (UC2B) Consortium was specifically formed for the purpose of seeking ARRA funding and implementing the three UC2B proposals. There are no historical or current financial statements. Those working on the Consortium have either been doing so within the context of their employment with one of the two cities or the University of Illinois, or have been community volunteers.

The University has been in business since 1867 and the two cities even longer, but their financial statements would not be relevant to the BTOP proposals being considered by NTIA. As a public entity, the UC2B Consortium will have public financial statements available once operations commence.

As the University of Illinois is the lead agency for the consortium, appended here are the University's last two years of financial statements. If this document is truncated upon uploading to easygrants, the full documents are online at:

http://www.obfs.uillinois.edu/obfshome.cfm?level=2&path=aboutobfs&xmldata=annualreports

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Basis of Presentation

The University of Illinois (University), a federal land grant institution and a component unit of the State of Illinois, conducts education, research, public service and related activities principally at its three campuses in Urbana-Champaign, Springfield and Chicago, which include the University of Illinois Hospital (Hospital) and other health care facilities. The governing body of the University is The Board of Trustees of the University of Illinois (Board).

As required by accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB), these financial statements present the financial position and financial activities of the University (the primary government) and its component units as well as certain activities and expenses funded by other State agencies on behalf of the University or its employees. The component units discussed below are included in the University's financial reporting entity (Entity) because of the significance of their financial relationship with the University.

The University Related Organizations' (UROs) column in the financial statements includes the financial data of the University's discretely presented component units. The University of Illinois Foundation (Foundation), the University of Illinois Alumni Association (Alumni Association), and Wolcott, Wood and Taylor, Inc. (WWT) are included in the University's reporting entity because of the significance of their operational or financial relationship with the University. These component units are discretely presented in a separate column to emphasize that they are Illinois non-profit organizations legally separate from the University.

The Foundation was formed for the purpose of providing fund raising and other assistance to the University in order to attract private gifts to support the University's instructional, research and public service activities. In this capacity, the Foundation solicits, receives, holds and administers gifts for the benefit of the University. Complete financial statements for the Foundation may be obtained by writing the Director of Business and Administration, 414C Harker Hall, 1305 W. Green Street, Urbana, IL 61801.

The Alumni Association was formed to promote the general welfare of the University and to encourage and stimulate interest among students, former students and others in the University's programs. In this capacity, the Alumni Association offers memberships in the Alumni Association to former students, conducts various activities for students and alumni, and publishes periodicals for the benefit of alumni. Complete financial statements for the Alumni Association may be obtained by writing the Director of Administration and Business Affairs, Alice Campbell Alumni Center, 601 S. Lincoln Avenue, Urbana, IL 61801.

WWT was formed to provide practice management support services and operate as a billing/collection entity for health care activities under the laws of the State of Illinois. Complete financial information may be obtained by writing the President and CEO, 200 W. Adams, Suite 225, Chicago, IL 60606.

Prairieland Energy, Inc. (Prairieland), a for profit, wholly-owned subsidiary, was formed for the purpose of providing support for the University through delivery of comprehensive economical utility services to all campuses of the University.

Illinois Ventures, LLC, (Illinois Ventures), a for profit, wholly-owned subsidiary, exists to facilitate the development of new companies commercializing technology originated or developed by faculty, staff and/or students of the University. The University desires Illinois Ventures to foster technology commercialization and economic development in accordance with the teaching, research, and public service missions of the University.

The University of Illinois Research Park, LLC, (Research Park), a for profit, wholly-owned subsidiary, was formed to aid and assist the University by establishing and operating a research park on the University's Urbana-Champaign campus. The Research Park was designed to promote the development of new companies which commercialize University technologies.

Activities of Prairieland, Illinois Ventures, and the Research Park for the current fiscal year, which were minimal, have been incorporated in the University's financial statements using the blended method.

The Foundation, Alumni Association, WWT, Prairieland, Illinois Ventures and the Research Park are related organizations as defined under *University Guidelines* adopted by the State of Illinois Legislative Audit Commission.

The University is a component unit of the State of Illinois for financial reporting purposes. The financial balances and activities included in these financial statements are, therefore, also included in the State's comprehensive annual financial report.

The basic financial statements include prior year comparative information, which has been derived from the University's 2006 financial statements. Such information does not include all of the information required to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the University's financial statements for the year ended June 30, 2006.

Certain items in the June 30, 2006 financial statements have been reclassified to correspond to the June 30, 2007 presentation.

The Entity's resources are classified into net asset categories and reported in the Statement of Net Assets. These categories are defined as (a) Invested in capital assets, net of related debt - capital assets net of accumulated depreciation and outstanding debt balances (b) Restricted nonexpendable - assets restricted by externally imposed stipulations (c) Restricted expendable - assets subject to externally imposed restrictions that can be fulfilled by actions of the Entity pursuant to those stipulations or that expire by the passage of time and (d) Unrestricted - assets not subject to externally imposed stipulations but may be designated for specific purposes by action of management or the Board of Trustees.

Significant Accounting Policies

The Entity prepared its financial statements as a Business Type Activity, as defined by GASB Statement No. 35, using the economic resources measurement focus and the accrual basis of accounting. Business Type Activities are those financed in whole or in part by fees charged to external parties for goods and services.

The Statement of Revenues, Expenses, and Changes in Net Assets classifies the Entity's fiscal year activity as operating and nonoperating. Operating revenues generally result from exchange transactions such as payments received for providing goods and services, including tuition and fees, net of scholarships and fellowships, certain grants and contracts, sales and services of educational activities, hospital, and auxiliary enterprise revenues.

Scholarships and fellowships of $144,313,000 and $2,707,000 are netted against student tuition and fees and auxiliary enterprises revenues, respectively. Stipends and other payments made directly to students are reported as scholarship and fellowship expense. Net tuition and fees, except for Summer Session, are recognized as revenues as they are assessed. The portion of Summer Session tuition and fees applicable to the following fiscal year is deferred.

Grant and contract revenues which are received or receivable from external sources are recognized as revenues to the extent of related expenses or satisfaction of eligibility requirements on the accrual basis. Advances are classified as deferred revenue.

Certain revenue sources that the Entity relies on to provide funding for operations including State appropriations, gifts, and investment income are defined by GASB Statement No. 35 as nonoperating. In addition, transactions related to capital and financing activities are components of nonoperating revenues.

Appropriations made from the State of Illinois General Revenue Fund for the benefit of the University are recognized as nonoperating revenues when eligibility requirements are satisfied.

In accordance with GASB Statement No. 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance*, the University reported payments made to the State Universities Retirement System on behalf of the Entity for contributions to retirement programs for Entity employees of approximately $107,982,000 for the year ended June 30, 2007. Substantially all employees participate in group health insurance plans administered by the State of Illinois. The employer contributions to these plans for University employees paid by State appropriations and auxiliary enterprises are paid to Central Management Services on behalf of the University. The employer contributions to these plans on behalf of employees paid from other University-held funds are paid by the University. The on behalf payments are approximately $268,675,000 for 2007. The cost of these benefits paid on behalf of the Hospital are reflected as operating revenues as the result of certain contractual agreements. All other on behalf payments are reflected as nonoperating revenues. In all cases, the corresponding on behalf expense is reflected as operating and reported in on behalf payments for fringe benefits.

With respect to the Hospital, net patient service revenue is reported at the estimated net realizable amounts due from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. Approximately 93% of the Hospital's net patient service revenues were derived from Medicare, Medicaid, Blue Cross and managed care programs for the year ended June 30, 2007. Payments under these programs are based on established program rates or costs, as defined, of rendering services to program beneficiaries. The Hospital provides contractual allowances on a current basis for the differences between charges for services rendered and the expected payments under these programs. For the year ended June 30, 2007, the contractual allowances totalled $801,308,000.

The Entity first applies restricted net assets when an expense or outlay is incurred for purposes for which both restricted and unrestricted net assets are available.

The majority of the Entity's expenses are exchange transactions which GASB defines as operating expenses for financial statement presentation. Nonoperating expenses include capital financing costs and costs related to investment activity.

Employment contracts for certain academic personnel provide for twelve monthly salary payments, although the contracted services are rendered during a nine month period. The liability for those employees who have completed their contracted services, but have not yet received final payment, was approximately $49,087,000 at June 30, 2007 and is recorded in the accompanying financial statements. This amount will be paid from amounts specifically included in State of Illinois General Revenue Fund appropriations to the University for fiscal year 2008 rather than from the unrestricted net assets available at June 30, 2007.

Accrued compensated absences for Entity personnel are charged as an operating expense, using the vesting method, based on earned but unused vacation and sick leave days including the Entity's share of social security and medicare taxes. At June 30, 2007, the University estimates that $119,892,000 of the accrued compensated absences liability will be paid out of State of Illinois General Revenue Fund appropriations to the University in subsequent years, rather than from unrestricted net assets available at June 30, 2007.

The Statement of Cash Flows details the change in the cash and cash equivalents balance for the fiscal year. Cash and cash equivalents include bank accounts and investments with original maturities of ninety days or less at the time of purchase. Such investments consist primarily of U.S. Treasury bills, commercial paper, repurchase agreements and money market funds.

Inventories are stated at the lower of cost or market. Cost is determined principally by the average cost method.

For donor restricted endowments, the Uniform Management of Institutional Funds Act, as adopted in Illinois, permits the Board of Trustees of the University of Illinois to appropriate an amount of realized and unrealized endowment appreciation as they determine to be prudent. The University's policy is to retain the endowment realized and unrealized appreciation with the endowment after spending rule distributions.

Capital assets are recorded at cost or fair value at the date of a gift. Depreciation of the capital assets is calculated on a straight-line basis over the estimated useful lives (three to fifty years) of the respective assets. The University's policy requires the capitalization of all land and collection purchases regardless of cost, equipment at $5,000, buildings and improvements at $100,000, and infrastructure at $1,000,000. The Entity does not capitalize collections of works of art or historical treasures held for public exhibition, education, or research in furtherance of public service rather than capital gain, unless they were capitalized as of June 30, 1999. Proceeds from the sale, exchange, or other disposal of any item belonging to a collection of works of art or historical treasures must be applied to the acquisition of additional items for the same collection.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. A material estimate that is particularly susceptible to significant change in the near term relates to the determination of the allowance for doubtful accounts and contractual allowances.

In accordance with GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, the Entity follows all applicable GASB pronouncements. In addition, the Entity applies all applicable Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions and Accounting Research Bulletins of the Committee on Accounting Procedures issued on or before November 30, 1989 unless those pronouncements conflict with or contradict GASB pronouncements. The Entity has elected not to apply FASB pronouncements issued after November 30, 1989.

NOTE 2 - CASH AND DEPOSITS

The carrying amount of the University's and the UROs' cash totalled $(17,072,000) and $6,666,000 at June 30, 2007, respectively.

The total bank account balances at June 30, 2007, of the University and the UROs, aggregated $8,272,000, and $5,733,000, respectively, of which $8,272,000, and $4,349,000, respectively, was covered by federal depository insurance or by collateral held by an agent in the Entity's name.

Certificates of Deposit, which are reported as investments per GASB Statement No. 9, for the University and the UROs totaled $400,000 and $33,000, respectively, at June 30, 2007 and were covered by federal depository insurance or collateral held by an agent in the Entity's name.

NOTE 3 - CASH EQUIVALENTS AND INVESTMENTS

Illinois Statutes govern the investment policies of the University and the UROs. Allowable investments under these policies include:

- Obligations of the U.S. Treasury, other federal agencies, and instrumentalities
- Bank and savings and loan time deposits
- Corporate bonds and stocks
- Commercial paper
- Repurchase agreements
- Mutual funds

Additionally, the University has investments in real estate and farm properties that are carried at cost, or when donated, at the fair value at the date of donation. All other investments are carried at their fair value, as determined by quoted market prices when available, and otherwise by generally accepted valuation principles. Investment income and the change in fair value of investments is recognized in the fund which owned such investments, except for income derived from investments of the University Endowment Fund which is recognized in the fund to which the income is restricted.

Illinois Statutes require a third party custodian to perfect the University's security interest under repurchase agreements. The University follows industry standards and requires that securities underlying repurchase agreements must have a fair value of at least 102% of the cost of the repurchase agreement. At June 30, 2007, the University and the UROs had repurchase agreements of $291,943,000 and $851,000, respectively and the market value of securities underlying these repurchase agreements was $307,321,000 and $851,000, respectively, at June 30, 2007.

Nearly all of the University's and the UROs' investments are managed by external professional investment managers, who have full discretion to manage their portfolios subject to investment policy and manager guidelines established by the University and the UROs, and in the case of mutual funds and other commingled vehicles, in accordance with the applicable prospectus.

Distributions are made from the University Endowment Fund to the University entities that benefit from the endowment funds. The endowment spending rule provides for an annual distribution of 4.75% of the two-quarter lagged, seven-year moving average market value of fund units. At June 30, 2007 net appreciation of $12,986,000 is available to be spent, of which $11,841,000 is restricted to specific purposes.

The Board develops University policy on investments and delegates the execution of those policies to its administrative agents. The University follows the State of Illinois Uniform Management of Institutional Funds Act when investing its endowment and operating funds. The State of Illinois Public Funds Investment Act provides the context and framework for plant fund investments. The following details the carrying value of the University's and the UROs' investment portfolio as of June 30, 2007:

UNIVERSITY CASH EQUIVALENTS AND INVESTMENTS (in thousands)

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The University employs multiple investment managers, of which each has specific maturity assignments related to the operating funds. The funds are structured with different layers of liquidity. Funds expected to be used within one year are invested in money market instruments. Core operating funds are invested in longer maturity investments. Core operating funds investment manager's performance benchmarks are Lehman Brothers 1-3 year Government Credit Bond Index and the Lehman Brothers Intermediate Aggregate Bond Index. The University's manager guidelines provide that the average weighted duration of the portfolio, including option positions, not vary from that of their respective performance benchmarks by more than +/-20 percent. The University's and the UROs' investments and maturities at June 30, 2007 are illustrated below:

UNIVERSITY INVESTMENT MATURITIES (in thousands)

	Total	Less than 1	1 - 5	6 - 10	Greater than 10

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The University's policy requires that operating funds be invested in fixed income securities and money market instruments. Fixed income securities shall be rated investment grade or better by one or more nationally recognized statistical rating organizations. Securities not covered by the investment grade standard are allowed if, in the manager's judgment, those instruments are of comparable credit quality. Securities which fall below the stated minimum credit requirements subsequent to initial purchase may be held at the manager's discretion. It is expected that the average credit quality of the operating funds will not fall below Standard & Poor's AA- or equivalent. At June 30, 2007 the University and the UROs had debt securities and quality ratings as shown in the charts below:

UNIVERSITY INVESTMENTS QUALITY RATINGS

Custodial Credit Risk: Custodial credit risk is the risk that in the event of the failure of the counterparty, the University will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Exposure to custodial credit risk relates to investment securities that are held by someone other than the University and are not registered in the University's name. The University investment policy does not limit the value of investments that may be held by an outside party. At June 30, 2007, the University's investments and deposits had no custodial credit risk exposure.

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of the University's investment in a single issuer. The University's policy provides that the total operating funds portfolio will be broadly diversified across securities in a manner that is consistent with fiduciary standards of diversification. This diversification is achieved by employing multiple investment managers and imposing maximum position limits for each manager. The University's manager guidelines for operating investments provide that non-U.S. government obligations may not exceed 10% per issuer and private mortgage-backed and asset-backed securities may not exceed 10% per issuer (unless collateral is credit independent of the issuer and the security's credit enhancement is generated internally, in which case the limit is 25% per issuer). Obligations with other issuers, other than the U.S. government, U.S. agencies, or U.S. government sponsored corporations and agencies, may not exceed 5%. As of June 30, 2007, not more than 5% of the University's total investments were invested in securities of any one issuer, excluding securities issued or guaranteed by the U.S. government, mutual funds, and external investment pools or other pooled investments.

Foreign Currency Risk: Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. The University's operating fund investments generally are not exposed to foreign currency risk. The University does not have an overarching policy related to foreign currency risk; however, under the investment manager's guidelines, the portfolio's foreign currency exposure may be unhedged or hedged back into U.S. dollars. Cross hedging is not permitted. The U.S. dollar balances of the University's and the UROs' cash equivalents and investments exposed to foreign currency risk as of June 30, 2007 are categorized by currency below:

UNIVERSITY INVESTMENTS FOREIGN CURRENCY EXPOSURE

Securities Lending: To enhance the return on investment, the Board of Trustees of the University has authorized participation in a securities lending program. Through its custodian bank, the University loans securities to independent third parties. Such loans are secured by collateral consisting of cash, cash equivalents or U.S. Government securities and irrevocable bank letters of credit in an amount not less than 102% of the fair value of the securities loaned. Any collateral securities cannot be pledged or sold by the University unless the borrower defaults. The University receives interest and dividends during the loan period as well as a fee from the custodian. At June 30, 2007, the University has no credit risk exposure to borrowers because the amounts the University owes the borrowers exceed the amounts the borrowers owe the University. As of June 30, 2007, approximately $136,983,000 of the investments reported on the University's Statement of Net Assets were on loan, secured by collateral with a fair value of approximately $140,889,000.

NOTE 4 - ACCOUNTS, NOTES, AND PLEDGES RECEIVABLE

The Entity provides allowances for uncollectible accounts and notes receivable based upon management's best estimate of uncollectible accounts and notes at the Statement of Net Assets date, considering type, age, collection history of receivables, and any other factors as considered appropriate. Accounts receivable are reported net of allowances of $263,311,000 at June 30, 2007. Notes receivable are reported net of allowances of $3,005,000 at June 30, 2007.

The composition of accounts receivable and notes and pledges receivable at June 30, 2007 is summarized as follows:

ACCOUNTS RECEIVABLE (in thousands)		
Receivables from sponsoring agencies	$	170,238
Hospital and other medical activities		84,262
Student tuition and fees, net of allowances		22,280
Auxiliaries, net of discounts and allowances		10,734
Medical service plan		32,956
Educational activities		13,531

TOTAL	$	335,262

NOTES AND PLEDGES RECEIVABLE (in thousands)		
Student notes - University:		
Student notes outstanding	$	64,352
Allowance for uncollectible loans		(3,005)
Total student notes, net	$	61,347
Gift pledges outstanding - UROs:		
Operations	$	28,465
Capital		10,948
Total gift pledges outstanding		39,413
Less:		
Allowance and unamortized discount to present value		(14,166)
Total pledges receivable, net	$	25,247

NOTE 5 - CAPITAL ASSETS

Net interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. Net interest of $676,000 was capitalized during the year ended June 30, 2007.

Capital assets activity for the University and the UROs for the year ended June 30, 2007 is summarized as follows:

UNIVERSITY CAPITAL ASSETS (in thousands)

	Beginning Balance	Additions	Retirements	Transfers	Ending Balance

NOTE 6 - ACCRUED SELF-INSURANCE, LOSS CONTINGENCY AND COMPENSATED ABSENCES

The University's accrued self-insurance liability of $156,178,000 at June 30, 2007 covers hospital patient liability; hospital and medical professional liability; estimated general and contract liability; and workers' compensation liability related to employees paid from local funds. The accrued self-insurance liability was discounted at a rate of 5.5% at June 30, 2007. Amounts increasing the accrued self-insurance liability are charged as expenses based upon estimates made by actuaries and the University's risk management division. The workers' compensation self-insurance liability of $12,599,000 at June 30, 2007 related to employees who are paid from State appropriations is included in the University's accounts payable. These claims will be paid from State appropriations in the year in which the claims are finalized, rather than from unrestricted net assets as of June 30, 2007.

Accrued self-insurance includes $105,036,000 at June 30, 2007 for the currently estimated ultimate cost of uninsured medical malpractice liabilities. Ultimate cost consists of amounts estimated by the University's risk management division and independent actuaries for asserted claims, unasserted claims arising from reported incidents, expected litigation expenses, and amounts determined by actuaries using relevant industry data and Hospital specific data to cover projected losses for claims incurred but not reported. Because the amounts accrued are estimates, the aggregate claims actually incurred could differ significantly from the accrued self-insurance liability at June 30, 2007. Changes in these estimates will be reflected in the Statement of Revenues, Expenses and Changes in Net Assets in the period when additional information is available.

The University has contracted with several commercial carriers to provide varying levels and upper limits of excess indemnity coverage. These coverages have been considered in determining the required accrued self-insurance liability. There were no settlements which exceeded insurance coverage during the last three years.

CHANGES IN ACCRUED SELF-INSURANCE
(in thousands)

	2007	2006
Balance, beginning of year	$ 142,214	$ 130,976
Claims incurred and changes in estimates	63,188	45,563
Claim payments	(49,224)	(34,325)
Balance, end of year	156,178	142,214
Less: current portion	(39,761)	(34,105)
Balance, end of year - noncurrent portion	$ 116,417	$ 108,109

Accrued compensated absences includes personnel earned but unused vacation and sick leave days, including the University's share of social security and medicare taxes, valued at the current rate of pay.

CHANGES IN COMPENSATED ABSENCES BALANCE
(in thousands)

Balance, beginning of year	$ 207,307
Additions/(Deductions)	1,875
Balance, end of year	209,182
Less: current portion	(16,761)
Balance, end of year - noncurrent portion	$ 192,421

NOTE 7 - BONDS AND NOTES PAYABLE

On October 5, 2006 the University issued Auxiliary Facilities System Revenue Bonds Series 2006 in the amount of $318,155,000. Series 2006 Bonds were issued to fund various improvements to the System, provide for the refunding of portions of the outstanding System bonds, Series 1996 and Series 2001B, to pay debt service during construction, and to pay all costs incidental to the issuance of the bonds. This resulted in savings of $3,820,000 over the life of the issue at a present value of approximately $2,226,000. The difference between the reacquisition price and net carrying amount of the old debt, loss on refunding was $2,026,000. This loss is deferred and amortized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter.

BONDS PAYABLE
(in thousands)

	Maturity Dates	Beginning Balance	New Debt	Principal Paid/Debt Refunded	Ending Balance	Current Portion
AUXILIARY FACILITIES SYSTEM -						
Current Interest Bonds	2008-2036	$ 526,220	$ 318,155	$ 63,155	$ 781,220	$ 12,120
Capital Appreciation Bonds	2008-2030	280,055		15,015	265,040	15,005
WILLARD AIRPORT	2008-2009	745		235	510	250
HEALTH SERVICES FACILITIES SYSTEM	2008-2027	63,230		1,755	61,475	1,834
UIC SOUTH CAMPUS	2008-2023	80,490		3,190	77,300	2,255
		$ 950,740	$ 318,155	$ 83,350	1,185,545	31,464
Unaccreted appreciation					(109,966)	(458)
					1,075,579	31,006
Unamortized debt premium					34,085	1,231
Unamortized loss on refunding					(17,617)	(994)
TOTAL					$ 1,092,047	$ 31,243

Capital appreciation bonds of $265,040,000 outstanding at June 30, 2007 do not require current interest payments and have a net unappreciated value of $155,074,000. The University records the annual increase in the principal amount of these bonds as interest expense and accretion on bonds payable.

On April 2, 2007 the University entered into a variable-to-fixed interest rate swap agreement with Lehman Brothers Commercial Bank. The purpose of this interest rate swap was to hedge variable rate demand Health Services Facility System revenue refunding bonds planned to be issued in July 2007. The notional amount of the interest rate swap was $40,875,000 and equal to the planned par amount of the bonds. The University will make monthly payments to the counterparty equal to 3.534% times the notional amount and will receive monthly payments from the counterparty equal to 68% of one-month LIBOR, commencing October 1, 2007.

The University engaged a third-party consultant to calculate the "mark to market" or "market value" of the swap transaction. On June 30, 2007, the mark to market value of the swap was $896,000. Since this is a positive number, it represents an approximation of the amount of money that a swap provider may have been willing to pay the University to terminate the swap. In accordance with governmental accounting standards, this amount is not required to be included in the accompanying financial statements.

The University has the option to terminate the swap early. The University or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. The University may terminate the swap if both credit ratings of the counterparty fall below BBB+ as issued by Standard & Poor's and Baa1 as issued by Moody's Investors Service. The counterparty credit rating by Standard & Poor's was A+ and by Moody's Investors Service was A1. If at the time of termination the swap has a negative fair value, the University would be liable to the counterparty for a payment equal to the swap's fair value.

The UIC South Campus Series 2006A Bonds, the Auxiliary Facilities System Series 2005B Bonds, and the Health Services Facilities System Series 1997B Bonds are variable rate bonds which bear interest at a defined weekly rate and are paid monthly. The required future interest payments for the Series 2006A, Series 2005B, and Series 1997B Bonds have been calculated using the current interest rate, based upon short term tax exempt rates, of 3.77%, 3.73%, and 3.77%, respectively, over the life of the bonds. Other outstanding bond issues bear interest at fixed rates ranging from 3.00% to 7.96%.

To facilitate the advance refunding of the UIC South Campus Development Project Series 1999 Bonds and, as a means to lower its borrowing costs, when compared against fixed-rate bonds at the time of issuance in February 2006, the University entered into two interest rate swaps in connection with its $53,700,000 variable-rate Bonds (UIC South Campus Development Project) Series 2006A. The intention of the swaps was to effectively change the University's variable interest rate on the Bonds to a synthetic fixed rate of 1.030% through August 1, 2007 and 4.292% thereafter, which includes the Bonds' current liquidity facility fee of 0.200%. In addition, there is a 0.080% current remarketing fee.

The Bonds and related swap agreements mature on January 15, 2022, and the swaps' initial notional amount of $53,700,000 matches the $53,700,000 variable-rate Bonds. The swaps were entered at the same time as the Bonds were issued (February 2006). Starting in fiscal year 2011, the notional value of the swaps and the principal amount of the associated bonds decline. Under the swaps, the University pays the counterparties a fixed payment of 0.830% through August 1, 2007 and 4.092% thereafter and receives a variable payment equal to its cost-of-funds through February 3, 2010 and thereafter receives a variable payment equal to 68% of one-month LIBOR. The credit ratings for the first counterparty by Standard & Poor's and Moody's Investors Service were AA- and Aa2, respectively. The credit ratings for the second counterparty by Standard & Poor's and Moody's Investors Service were A+ and Aa3, respectively.

The University engaged a third-party consultant to calculate the "mark to market" or "market value" of the swap transaction. On June 30, 2007, the combined mark to market value of the two swaps was ($785,000). Since this is a negative number it represents an approximation of the amount of money that the University may have have to pay a swap provider to terminate the swap. In accordance with governmental accounting standards, this amount is not required to be included in the accompanying financial statements.

The University has the option to terminate the swap early. The University or the counterparties may terminate the swaps if the other party fails to perform under the terms of the contract. The University may terminate the swap if both credit ratings of the counterparties fall below BBB+ as issued by Standard & Poor's and Baa1 as issued by Moody's Investors Service. If the swaps are terminated, the variable-rate Bonds would no longer carry a synthetic fixed interest rate. Also, if at the time of termination, the swaps have a negative fair value, the University would be liable to the counterparties for a payment equal to the swaps' fair value.

Using the actual rate of 3.77% in effect as of June 30, 2007, debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same for their term, were as follows. As rates vary, variable-rate bond interest payments and net swap payments will also vary.

UIC SOUTH CAMPUS BONDS SERIES 2006A
VARIABLE-RATE DEBT SERVICE REQUIREMENTS
(in thousands)

	Variable-Rate Bonds		Interest Rate	
	Principal	Interest	Swaps, Net	Total
2008	$	$ 2,030	$ (125)	$ 1,905
2009		2,024	173	2,197
2010		2,024	173	2,197
2011	215	2,021	173	2,409
2012	540	2,014	166	2,720
2013-2017	21,290	8,329	705	30,324
2018-2022	31,655	3,280	275	35,210
TOTAL	$ 53,700	$ 21,722	$ 1,540	$ 76,962

None of the University's bonds described above constitute obligations of the State of Illinois. Series 1979, 1991, 1993, 1996, 1999A, 1999B, 2000, 2001A, 2001B, 2001C, 2003A, 2005A, 2005B, and 2006 Auxiliary Facilities System Bonds are payable solely from net revenues of the Auxiliary Facilities System, student tuition and fees and certain restricted plant funds. Series 1997 Bonds are payable solely from the net revenues of the Airport and related restricted plant funds. Series 1997A and 1997B Bonds are payable solely from net revenues of the Health System, Medical Service Plan revenue net of bad debt expense, and College of Medicine net tuition revenue. Series 2000, 2003, and 2006A Bonds are payable from revenue derived from the defined tax increment financing (TIF) district, student tuition and fees, and funds on deposit in the Bond and Interest Sinking Fund. In addition, the Series 2000 Bonds are payable from the sales proceeds derived from the sale of certain land in the University of Illinois UIC South Campus Development Project. During fiscal year 2007, the debt service payments related to the Series 2000, 2003, and 2006A Bonds were $5,406,000. Proceeds from the sale of land of $2,928,000 and revenue from other legally available sources of $2,478,000 funded these payments.

Costs associated with the issuance of the Series 1991, 1993, 1996, 1999A, 1999B, 2000, 2001A, 2001B, 2001C, 2003A, 2005A, 2005B, and 2006 Auxiliary Facilities System Bonds; Series 1997 Willard Airport Bonds; Series 1997A and 1997B Health Services Facilities Bonds; and Series 2000, 2003, and 2006A UIC South Campus Bonds have been recorded as deferred charges and are being amortized over the life of the related bond issue.

The Foundation has a demand note outstanding with interest at 5.82% and principal outstanding of $6,402,000. The change in the balance for fiscal year 2007 is as follows:

CHANGE IN NOTES PAYABLE
(in thousands)

Balance, beginning of year	$ 6,657
Payments	(255)
Balance, end of year	$ 6,402

The University has defeased bonds through advanced funding in prior years and, accordingly, they are not reflected in the accompanying statements. The amount of bonds which have been defeased as of June 30, 2007 consists of the following:

ADVANCE REFUNDED BONDS
(in thousands)

Series	Outstanding at June 30, 2007
1978-M	$ 35,030
1999	49,365
1999A	85,300
2000	10,785
2001B	55,315
TOTAL	$ 235,795

Future debt service requirements for all bonds outstanding at June 30, 2007 are as follows:

DEBT SERVICE REQUIREMENTS
(in thousands)

	Principal	Interest
2008	$ 31,464	$ 45,560
2009	33,475	44,803
2010	34,105	43,818
2011	36,005	42,814
2012	37,805	41,723
2013-2017	214,940	190,158
2018-2022	261,230	153,479
2023-2027	204,215	104,593
2028-2032	209,345	55,032
2033-2036	122,961	11,895
TOTAL	$ 1,185,545	$ 733,875

Certain bonds of the University have debt service reserve requirements. The Maximum Annual Net Debt Service for those bonds, as defined, is $15,388,000.

NOTE 8 - LEASEHOLDS AND OTHER OBLIGATIONS

Leaseholds payable and other obligations activity for the year ended June 30, 2007 consist of the following:

LEASEHOLDS AND OTHER OBLIGATIONS
(in thousands)

	Beginning Balance	Additions	Deductions	Ending Balance	Current Portion
University:					
Certificates of Participation	$ 467,300	$	$ (26,530)	$ 440,770	$ 26,970
Unamortized debt premium	13,200		(1,487)	11,713	1,487
Unamortized deferred loss on refunding	(15,586)		1,222	(14,364)	(1,222)
	464,914		(26,795)	438,119	27,235
Other capital leases	55,385	5,579	(5,883)	55,081	6,675
Environmental remediation liability	4,724	300	(184)	4,840	375
Total University	$ 525,023	$ 5,879	$ (32,862)	$ 498,040	$ 34,285
UROs:					
Annuities payable	$ 51,690	$	$ (582)	$ 51,108	$ 6,700
Other liabilities	6,660	700		7,360	
Total UROs	$ 58,350	$ 700	$ (582)	$ 58,468	$ 6,700

The University leases various plant facilities and equipment under capital leases. This includes assets obtained with certificates of participation proceeds and recorded as capital leases, as well as other capital lease agreements funded through operations.

On June 6, 2006 the University issued Certificates of Participation (Academic Facilities Projects) Series 2006A in the amount of $81,930,000. The Series 2006A Certificates were issued to acquire, construct and install, and equip a business instructional facility on the Urbana campus and to finance various improvements to buildings on the University's three campuses.

To facilitate the advance refunding of the Certificates of Participation (Utility Infrastructure Projects) Series 2001 A & B; and, as a means to lower its borrowing costs, when compared against fixed-rate bonds at the time of issuance in March 2004, the University entered into an interest rate swap in connection with its $143,665,000 variable-rate Certificates of Participation (Utility Infrastructure Projects) Series 2004. The intention of the swap was to effectively change the University's variable interest rate on the Certificates to a synthetic fixed rate of 3.855%, which includes the Certificates' current liquidity facility fee of 0.09%. In addition, there is a 0.05% current remarketing fee.

The Certificates and related swap agreement mature on August 15, 2021, and the swap's initial notional amount of $143,665,000 matches the $143,665,000 variable-rate Certificates. The swap was entered at the same time as the Certificates were issued (March 2004). Starting in fiscal year 2006, the notional value of the swap and the principal amount of the associated Certificates began to decline. Under the swap, the University pays the counterparty a fixed payment of 3.765% and receives a variable payment computed as 100% of the Securities Industry & Financial Market Association Index (SISMA). Conversely, the Certificates' variable interest rates are expected to approximate SISMA. For FY 2007, the Certificates' average variable interest rate has been equal to SISMA. The counterparty credit rating by Standard & Poor's was A+ and by Moody's Investors Service was Aa3.

The University engaged a third-party consultant to calculate the "mark to market" or "market value" of the swap transaction. On June 30, 2007, the mark to market value of the swap was $2,348,000. Since this is a positive number, it represents an approximation of the amount of money that a swap provider may have been willing to pay the University to terminate the swap. In accordance with governmental accounting standards, this amount is not required to be included in the accompanying financial statements.

The University has the option to terminate the swap early. The University or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. The University may terminate the swap if both credit ratings of the counterparty fall below BBB+ as issued by Standard & Poor's and Baa1 as issued by Moody's Investors Service. If the swap is terminated, the variable-rate Certificates would no longer carry a synthetic fixed interest rate. Also, if at the time of termination the swap has a negative fair value, the University would be liable to the counterparty for a payment equal to the swap's fair value.

Using the actual rate of 3.74% in effect as of June 30, 2007, debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same for their term, were as follows. As rates vary, variable-rate bond interest payments and net swap payments will also vary.

VARIABLE-RATE DEBT SERVICE REQUIREMENTS
(in thousands)

	Variable-Rate Certificates		Interest Rate	
	Principal	Interest	Swaps, Net	Total
2008	$ 995	$ 5,285	$ 35	$ 6,315
2009	1,035	5,261	20	6,316
2010	1,075	5,207	35	6,317
2011	6,570	5,065	33	11,668
2012	6,840	4,814	31	11,685
2013-2017	38,600	19,960	106	58,666
2018-2022	86,680	8,377	41	95,098
TOTAL	$ 141,795	$ 53,969	$ 301	$ 196,065

Assets held under capital leases are included in capital assets at June 30, 2007 as follows:

ASSETS HELD UNDER CAPITAL LEASE
(in thousands)

Land	$ 8,423
Buildings	73,952
Improvements	263,249
Equipment	165,348
Subtotal	510,972
Less: accumulated depreciation	115,370
TOTAL	$ 395,602

The net present value of outstanding capital leases at June 30, 2007 is:

OUTSTANDING CAPITAL LEASES
(in thousands)

Certificates of Participation:	
Series 1997 Utility Infrastructure	$ 15,335
Series 2001 UI Integrate	74,665
Series 2003 South Farms	22,285
Series 2003 UI Integrate	31,700
Series 2003 Utility Infrastructure	57,200
Series 2004 Utility Infrastructure	141,795
Series 2005 College of Medicine	19,220
Series 2006A Academic Facilities	78,570
Other capital leases	55,081
NET PRESENT VALUE	$ 495,851

As of June 30, 2007, future minimum lease payments under capital leases is as follows:

FUTURE MINIMUM LEASE PAYMENTS UNDER CAPITAL LEASES (in thousands)		
2008	$	54,768
2009		53,517
2010		52,738
2011		51,963
2012		49,164
2013-2017		197,559
2018-2022		154,880
2023-2027		54,981
Total minimum lease payments		669,570
Amount representing interest		(173,719)
NET PRESENT VALUE	$	495,851

The University monitors environmental matters and records an estimated liability for identified environmental remediation costs. The estimated liability at June 30, 2007 is $4,840,000.

The University also leases various buildings and equipment under operating lease agreements. Total rental expense under these agreements was $10,826,000 for the year ended June 30, 2007. The future mininum lease payments (excluding those leases renewed on an annual basis) are as follows:

FUTURE MINIMUM OPERATING LEASE PAYMENTS (in thousands)		
2008	$	9,478
2009		6,405
2010		4,241
2011		2,394
2012		1,349
2013-2017		3,702
2018-2022		620
2023-2025		372
TOTAL	$	28,561

At June 30, 2007, the Foundation had annuities payable outstanding of $51,108,000. Annuities payable represent an actuarial computation of the present value of future payments to annuitants.

NOTE 9 - NET ASSETS

As discussed in Note 1 to the financial statements, the Entity's net assets are classified for accounting and reporting purposes into one of four net asset categories according to externally imposed restrictions. The following tables include detail of the net asset balances for the University and the UROs including major categories of restrictions and internal designations of unrestricted funds.

UNIVERSITY NET ASSETS
(in thousands)

Invested in capital assets, net of related debt	$ 1,842,039
Restricted - nonexpendable	
Invested in perpetuity to produce income expendable for -	
Scholarships, fellowships and research	51,345
Restricted - expendable for -

Amount expected to be financed in future years	(197,400)
Undesignated	17,924
TOTAL	$ 2,415,856

URO NET ASSETS
(in thousands)

Invested in capital assets, net of related debt	$ 2,799
Restricted - nonexpendable	
Invested in perpetuity to produce income expendable for -	
Scholarships, fellowships and research	838,362
Restricted - expendable for -	
Scholarships, fellowships and research	377,944
Unrestricted	29,545
TOTAL	$ 1,248,650

NOTE 10 - FUNDS HELD IN TRUST BY OTHERS

The University and Foundation are income beneficiaries of several irrevocable trusts which are held and administered by outside trustees. The University and Foundation have no control over these funds as to either investment decisions or income distributions, thus the principal is not recorded in the accompanying financial statements. The fair value of these funds at June 30, 2007 and the amount of income received from these trusts during the year then ended were as follows:

FUNDS HELD IN TRUST BY OTHERS
(in thousands)

	University	Foundation
Fair value of funds held in trust by others	$ 42,946	$ 28,431
Income received from funds held in trust by others	$ 1,149	$ 945

NOTE 11 - STATE UNIVERSITIES RETIREMENT SYSTEM

The Entity contributes to the State Universities Retirement System of Illinois (SURS), a cost-sharing multiple-employer defined-benefit pension plan with a special funding situation whereby the State of Illinois makes substantially all actuarially determined required contributions on behalf of the participating employers. SURS was established July 21, 1941, to provide retirement annuities and other benefits for staff members and employees of the State universities, certain affiliated organizations, and certain other State educational and scientific agencies and for survivors, dependents, and other beneficiaries of such employees. SURS is considered a component unit of the State of Illinois' financial reporting entity and is included in the State's financial reports as a pension trust fund. SURS is governed by Section 5/15, Chapter 40, of the *Illinois Compiled Statutes*. SURS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by accessing the website at www.SURS.org or by calling 1-800-275-7877.

Eligible employees must participate upon initial employment. Employees are ineligible to participate if (a) employed after having attained age 68; (b) employed less than 50% of full-time; or (c) employed less than full-time and attending classes with an employer. Of those Entity employees ineligible to participate, the majority are students at the University.

SURS provides retirement, disability and death benefits. Members are eligible for normal retirement at any age after 35 years of service, at age 60 after 8 years of service or at age 62 after 5 years of service. There are also provisions for early retirement. Retirement benefits are based on certain formulas that generally are a function of years of service and the average salary based on the highest earnings of any four consecutive years. Disability benefits are paid to disabled members with two years of covered service, generally at 50% of basic compensation until the total benefits paid equal 50% of the total earnings in covered service. Death benefits are payable to survivors of an active member with one and one half years of covered service or of a former member with ten years of covered service. These benefits are payable until children attain the age of 18, to a spouse after age 50 and to a dependent parent after age 55. Benefits are equal to the retirement contributions and interest, a lump sum payment of $1,000, and a monthly annuity equal to a portion of the accrued normal retirement benefit based on specified formulas.

Plan members are required to contribute 8.0% of their annual covered salary and substantially all employer contributions are made by the State of Illinois on behalf of the individual employers at an actuarially determined rate. The current rate is 10.61% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the Illinois General Assembly. The University's contributions to SURS for the years ended June 30, 2007, 2006, and 2005 were $138,499,000, $101,570,000 and $145,752,000 respectively, equal to the required contributions for each year. The URO's contributions to SURS for the years ended June 30, 2007, 2006, and 2005 were $719,000, $573,000 and $520,000 respectively.

Entity employees hired prior to April 1, 1986 are exempt from contributions required under the Federal Insurance Contribution Act. Employees hired after March 31, 1986 are required to contribute 1.45% of their gross salary for Medicare. The Entity is required to match this contribution.

Employees may also elect to participate in certain tax-sheltered retirement plans. These voluntary plans permit employees to designate a part of their earnings into tax-sheltered investments and thus defer federal and state income taxes on their contributions and the accumulated earnings under the plans. Participation and the level of employee contributions are voluntary. The employer is not required to make contributions to these plans.

NOTE 12 - POSTEMPLOYMENT BENEFITS

In addition to providing pension benefits, the State provides certain health, dental and life insurance benefits to annuitants who are former State employees. This includes annuitants of the Entity. Substantially all State employees, including the employees of the Entity, may become eligible for postemployment benefits if they eventually become annuitants. Health and dental benefits include basic benefits for annuitants under the State's self-insurance plan and insurance contracts currently in force. Life insurance benefits for annuitants under age 60 are equal to their annual salary at the time of retirement; life insurance benefits for annuitants age 60 and older are limited to $5,000 per annuitant.

Currently, the State does not segregate payments made to annuitants from those made to current employees for health, dental and life insurance benefits. These costs are funded by the State except for certain non-appropriated funds funded by the University.

NOTE 13 - COMMITMENTS AND CONTINGENCIES

At June 30, 2007 the University had commitments on various construction projects and contracts for repairs and renovation of facilities of approximately $158,357,000.

The University receives monies from federal and state government agencies under grants and contracts for research and other activities. The costs, both direct and indirect, charged to these grants and contracts are subject to audit and disallowance by the granting agency. The University believes that any disallowances or adjustments would not have a material effect on the University's financial position.

The University also receives monies under third-party payor arrangements for payment of medical services rendered at its hospital and clinics. Some of these arrangements allow for settlement adjustments based on costs and other factors. The University believes that any adjustments would not have a material effect on the University's financial position.

The University is a defendant in a number of legal actions primarily related to medical malpractice. These legal actions have been considered in estimating the University's accrued self-insurance liability. The total of amounts claimed under these legal actions, including potential settlements and amounts relating to losses incurred but not reported, could exceed the amount of the self-insurance liability. In the opinion of the University's administrative officers, the University's self-insurance liability and limited excess indemnity insurance coverage from commercial carriers are adequate to cover the ultimate liability of these legal actions, in all material respects.

The University's hospital and clinics are involved in regulatory audits arising in the normal course of business. On June 8, 2007, a notice was received from the Office of Inspector General on behalf of the Illinois Department of Healthcare and Family Services indicating that the University received an overpayment of $14.8 million on behalf of Medicaid patients. University management is in the process of contesting this overpayment and estimates its probable liability regarding this overpayment is approximately $4.8 million, of which $3.3 million and $1.5 million could be paid by the Hospital and the UIC College of Pharmacy, respectively. This liability of $4.8 million has been reflected in the University's financial position and results from operations as of June 30, 2007.

NOTE 14 - OPERATING EXPENSES BY NATURAL CLASSIFICATION

Operating expenses by natural classification for the year ended June 30, 2007 for the University and the UROs are summarized as follows:

UNIVERSITY OPERATING EXPENSES BY NATURAL CLASSIFICATION
(in thousands)

	Compensation and benefits	Supplies and services	Student aid	Depreciation	Total
Instruction	$ 583,428	$ 116,907	$ 3,205	$	$ 703,540

NOTE 15 - SEGMENT INFORMATION

The following financial information represents identifiable activities for which one or more revenue bonds is outstanding. The Auxiliary Facilities System is comprised of University owned housing units, student unions, recreation and athletic facilities, and similar auxiliary service units including parking. The Health Services Facilities System is comprised of the University of Illinois Hospital and associated clinical facilities providing patient care. The Willard Airport Facility is comprised of land, hangars, a terminal building, parking lots, runways, and related apron areas.

NOTE 17 - SUBSEQUENT EVENTS

On July 12, 2007, the University sold Variable Rate Demand Health Services Facilities System Revenue Refunding Bonds Series 2007 in the amount of $40,875.000. The closing date for these bonds was July 19, 2007. The proceeds of the Series 2007 Bonds will be used, together with certain other available monies, to defease the Health Services Facilities System Series 1997A Bonds and to pay all costs incidental to the issuance of the Series 2007 bonds.

On January 4, 2008, the University issued Certificates of Participations Series 2007A, 2007B, 2007C, and Taxable 2007D for the amounts of $72,725,000, $45,625,000, $31,340,000, and $81,500,000, respectively. The proceeds from the Series 2007A Certificates will be used to fund various improvements at all three University campuses and additions at the Urbana-Champaign campus, to refund the Series 1997 Certificates, and to pay all costs incidental to the issuance of the bonds. The proceeds from the Series 2007B Certificates will be used to refund a portion of the Series 2001 Certificates and to pay all costs incidental to the issuance of the bonds. The proceeds from the Series 2007C Certificates will be used to fund an addition at the University's health profession site in Rockford, Illinois. The proceeds from the Taxable Series 2007D Certificates will be used to fund a portion of the costs for the construction of a petascale computing facility.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Basis of Presentation

The University of Illinois (University), a federal land grant institution and a component unit of the State of Illinois, conducts education, research, public service and related activities principally at its three campuses in Urbana-Champaign, Chicago, which includes the University of Illinois Hospital (Hospital) and other health care facilities, and Springfield. The governing body of the University is The Board of Trustees of the University of Illinois (Board).

As required by accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB), these financial statements present the financial position and financial activities of the University (the primary government) and its component units as well as certain activities and expenses funded by other State agencies on behalf of the University or its employees. The component units discussed below are included in the University's financial reporting entity (Entity) because of the significance of their financial relationship with the University.

The University Related Organizations' (UROs) column in the financial statements includes the financial data of the University's discretely presented component units. The University of Illinois Foundation (Foundation), the University of Illinois Alumni Association (Alumni Association), and Wolcott, Wood and Taylor, Inc. (WWT) are included in the University's reporting entity because of the significance of their operational or financial relationship with the University. These component units are discretely presented in a separate column to emphasize that they are Illinois non-profit organizations legally separate from the University.

The Foundation was formed for the purpose of providing fund raising and other assistance to the University in order to attract private gifts to support the University's instructional, research and public service activities. In this capacity, the Foundation solicits, receives, holds and administers gifts for the benefit of the University. Complete financial statements for the Foundation may be obtained by writing the Senior Vice President for Administration, 400 Harker Hall, 1305 W. Green Street, Urbana, IL 61801.

The Alumni Association was formed to promote the general welfare of the University and to encourage and stimulate interest among students, former students and others in the University's programs. In this capacity, the Alumni Association offers memberships in the Alumni Association to former students, conducts various activities for students and alumni, and publishes periodicals for the benefit of alumni. Complete financial statements for the Alumni Association may be obtained by writing the Chief Financial Officer, Alice Campbell Alumni Center, 601 S. Lincoln Avenue, Urbana, IL 61801.

WWT was formed to provide practice management support services and operate as a billing/collection entity for health care activities under the laws of the State of Illinois. Complete financial information may be obtained by writing the President and CEO, 200 W. Adams, Suite 225, Chicago, IL 60606.

Prairieland Energy, Inc. (Prairieland), a for profit, wholly-owned subsidiary, was formed for the purpose of providing support for the University through delivery of comprehensive economical utility services to the University.

Illinois Ventures, LLC, (Illinois Ventures), a for profit, wholly-owned subsidiary, exists to facilitate the development of new companies commercializing technology originated or developed by faculty, staff and/or students of the University. The University desires Illinois Ventures to foster technology commercialization and economic development in accordance with the teaching, research, and public service missions of the University.

The University of Illinois Research Park, LLC, (Research Park), a for profit, wholly-owned subsidiary, was formed to aid and assist the University by establishing and operating a research park on the University's Urbana-Champaign campus. The Research Park was designed to promote the development of new companies which commercialize University technologies.

Activities of Prairieland, Illinois Ventures, and the Research Park for the current fiscal year, which were minimal, have been incorporated in the University's financial statements using the blended method.

The Foundation, Alumni Association, WWT, Prairieland, Illinois Ventures and the Research Park are related organizations as defined under *University Guidelines* adopted by the State of Illinois Legislative Audit Commission.

The University is a component unit of the State of Illinois for financial reporting purposes. The financial balances and activities included in these financial statements are, therefore, also included in the State's comprehensive annual financial report.

The basic financial statements include prior year comparative information, which has been derived from the University's 2007 financial statements. Such information does not include all of the information required to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the University's financial statements for the year ended June 30, 2007.

Certain items in the June 30, 2007 financial statements have been reclassified to correspond to the June 30, 2008 presentation.

The Entity's resources are classified into net asset categories and reported in the Statement of Net Assets. These categories are defined as (a) Invested in capital assets, net of related debt - capital assets net of accumulated depreciation and outstanding debt balances (b) Restricted nonexpendable - assets restricted by externally imposed stipulations (c) Restricted expendable - assets subject to externally imposed restrictions that can be fulfilled by actions of the Entity pursuant to those stipulations or that expire by the passage of time and (d) Unrestricted - assets not subject to externally imposed stipulations but may be designated for specific purposes by action of management or the Board of Trustees.

Significant Accounting Policies

The Entity prepared its financial statements as a Business Type Activity, as defined by GASB Statement No. 35, using the economic resources measurement focus and the accrual basis of accounting. Business Type Activities are those financed in whole or in part by fees charged to external parties for goods and services.

The Statement of Revenues, Expenses, and Changes in Net Assets classifies the Entity's fiscal year activity as operating and nonoperating. Operating revenues generally result from exchange transactions such as payments received for providing goods and services, including tuition and fees, net of scholarships and fellowships, certain grants and contracts, sales and services of educational activities, hospital, and auxiliary enterprise revenues.

Scholarships and fellowships of $160,201,000 and $2,123,000 are netted against student tuition and fees and auxiliary enterprises revenues, respectively. Stipends and other payments made directly to students are reported as scholarship and fellowship expense. Net tuition and fees, except for Summer Session, are recognized as revenues as they are assessed. The portion of Summer Session tuition and fees applicable to the following fiscal year is deferred.

Grant and contract revenues which are received or receivable from external sources are recognized as revenues to the extent of related expenses or satisfaction of eligibility requirements on the accrual basis. Advances are classified as deferred revenue.

Certain revenue sources that the Entity relies on to provide funding for operations including State appropriations, gifts, and investment income are defined by GASB Statement No. 35 as nonoperating. In addition, transactions related to capital and financing activities are components of nonoperating revenues.

Appropriations made from the State of Illinois General Revenue Fund for the benefit of the University are recognized as nonoperating revenues when eligibility requirements are satisfied.

In accordance with GASB Statement No. 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance,* the University reported payments made to the State Universities Retirement System on behalf of the Entity for contributions to retirement programs for Entity employees of approximately $144,642,000 for the year ended June 30, 2008. Substantially all employees participate in group health insurance plans administered by the State of Illinois. The employer contributions to these plans for University employees paid by State appropriations and auxiliary enterprises are paid to Central Management Services on behalf of the University. The employer contributions to these plans on behalf of employees paid from other University-held funds are paid by the University. The on behalf payments are approximately $296,838,000 for 2008. The cost of these benefits paid on behalf of the Hospital are reflected as operating revenues as the result of certain contractual agreements. All other on behalf payments are reflected as nonoperating revenues. In all cases, the corresponding on behalf expense is reflected as operating and reported in on behalf payments for fringe benefits.

With respect to the Hospital, net patient service revenue is reported at the estimated net realizable amounts due from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. Approximately 96% of the Hospital's net patient service revenues were derived from Medicare, Medicaid, Blue Cross and managed care programs for the year ended June 30, 2008. Payments under these programs are based on established program rates or costs, as defined, of rendering services to program beneficiaries. The Hospital provides contractual allowances on a current basis for the differences between charges for services rendered and the expected payments under these programs. For the year ended June 30, 2008, the contractual allowances totalled $888,714,000.

The Entity first applies restricted net assets when an expense or outlay is incurred for purposes for which both restricted and unrestricted net assets are available.

The majority of the Entity's expenses are exchange transactions which GASB defines as operating expenses for financial statement presentation. Nonoperating expenses include capital financing costs and costs related to investment activity.

Employment contracts for certain academic personnel provide for twelve monthly salary payments, although the contracted services are rendered during a nine month period. The liability for those employees who have completed their contracted services, but have not yet received final payment, was approximately $53,295,000 at June 30, 2008 and is recorded in the accompanying financial statements. This amount will be paid from amounts specifically included in State of Illinois General Revenue Fund appropriations to the University for fiscal year 2009 rather than from the unrestricted net assets available at June 30, 2008.

Accrued compensated absences for Entity personnel are charged as an operating expense, using the vesting method, based on earned but unused vacation and sick leave days including the Entity's share of social security and medicare taxes. At June 30, 2008, the University estimates that $119,876,000 of the accrued compensated absences liability will be paid out of State of Illinois General Revenue Fund appropriations to the University in subsequent years, rather than from unrestricted net assets available at June 30, 2008.

The Statement of Cash Flows details the change in the cash and cash equivalents balance for the fiscal year. Cash and cash equivalents include bank accounts and investments with original maturities of ninety days or less at the time of purchase. Such investments consist primarily of U.S. Treasury bills, commercial paper, repurchase agreements, and money market funds.

Inventories are stated at the lower of cost or market. Cost is determined principally by the average cost method.

For donor restricted endowments, the Uniform Management of Institutional Funds Act, as adopted in Illinois, permits the Board of Trustees of the University of Illinois to appropriate an amount of realized and unrealized endowment appreciation as they determine to be prudent. The University's policy is to retain the endowment realized and unrealized appreciation with the endowment after spending rule distributions.

Capital assets are recorded at cost or fair value at the date of a gift. Depreciation of the capital assets is calculated on a straight-line basis over the estimated useful lives (three to fifty years) of the respective assets. The University's policy requires the capitalization of all land and collection purchases regardless of cost, equipment at $5,000, buildings and improvements at $100,000, and infrastructure at $1,000,000. The Entity does not capitalize collections of works of art or historical treasures held for public exhibition, education, or research in furtherance of public service rather than capital gain, unless they were capitalized as of June 30, 1999. Proceeds from the sale, exchange, or other disposal of any item belonging to a collection of works of art or historical treasures must be applied to the acquisition of additional items for the same collection.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. A material estimate that is particularly susceptible to significant change in the near term relates to the determination of the allowance for doubtful accounts and contractual allowances.

In accordance with GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting,* the Entity follows all applicable GASB pronouncements. In addition, the Entity applies all applicable Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions and Accounting Research Bulletins of the Committee on Accounting Procedures issued on or before November 30, 1989 unless those pronouncements conflict with or contradict GASB pronouncements. The Entity has elected not to apply FASB pronouncements issued after November 30, 1989.

NOTE 2 – CASH AND DEPOSITS

The carrying amount of the University's and the UROs' cash totalled $(9,647,000) and $5,282,000 at June 30, 2008, respectively.

The total bank account balances at June 30, 2008, of the University and the UROs, aggregated $11,557,000, and $5,034,000, respectively, of which $11,557,000, and $4,337,000, respectively, was covered by federal depository insurance or by collateral held by an agent in the Entity's name.

Certificates of Deposit, which are reported as investments per GASB Statement No. 9, for the University and the URO's totaled $ 400,000 and $54,000 at June 30, 2008 and were covered by federal depository insurance or collateral held by an agent in the Entity's name.

NOTE 3 – CASH EQUIVALENTS AND INVESTMENTS

Illinois Statutes govern the investment policies of the University. Allowable investments under these policies include:

- Obligations of the U.S. Treasury, other federal agencies, and instrumentalities
- Interest-bearing savings accounts and time deposits of any bank as defined by the Illinois Banking Act
- Corporate bonds and stocks
- Commercial paper
- Repurchase agreements
- Mutual funds

Additionally, the University has investments in real estate and farm properties that are carried at cost, or when donated, at the fair value at the date of donation. All other investments are carried at their fair value, as determined by quoted market prices when available, and otherwise by generally accepted valuation principles. Investment income and the change in fair value of investments is recognized in the fund which owned such investments, except for income derived from investments of the University Endowment Fund which is recognized in the fund to which the income is restricted.

Illinois Statutes require a third party custodian to perfect the University's security interest under repurchase agreements. The University follows industry standards and requires that securities underlying repurchase agreements must have a fair value of at least 102% of the cost of the repurchase agreement. At June 30, 2008, the University and the UROs had repurchase agreements of $140,398,000 and $25,000, respectively and the market value of securities underlying these repurchase agreements was $155,865,000 and $25,000, respectively, at June 30, 2008.

Nearly all of the University's and the UROs' investments are managed by external professional investment managers, who have full discretion to manage their portfolios subject to investment policy and manager guidelines established by the University and the UROs, and in the case of mutual funds and other commingled vehicles, in accordance with the applicable prospectus.

Distributions are made from the University Endowment Fund to the University entities that benefit from the endowment funds. The endowment spending rule provides for an annual distribution of 4.75% of the two-quarter lagged, three-year moving average market value of fund units. At June 30, 2008 net appreciation of $16,812,000 is available to be spent, of which $14,126,000 is restricted to specific purposes.

The Board develops University policy on investments and delegates the execution of those policies to its administrative agents. The University follows the State of Illinois Uniform Management of Institutional Funds Act when investing its endowment and operating funds. The State of Illinois Public Funds Investment Act provides the context and framework for plant fund investments. The following details the carrying value of the University's and the UROs' investment portfolio as of June 30, 2008:

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The University employs multiple investment managers, of which each has specific maturity assignments related to the operating funds. The funds are structured with different layers of liquidity. Funds expected to be used within one year are invested in money market instruments. Core operating funds are invested in longer maturity investments. Core operating funds investment manager's performance benchmarks are Lehman Brothers 1-3 year Government Credit Bond Index and the Lehman Brothers Intermediate Aggregate Bond Index. The University's manager guidelines provide that the average weighted duration of the portfolio, including option positions, not vary from that of their respective performance benchmarks by more than +/-20 percent. The University's and the UROs' investments and maturities at June 30, 2008 are illustrated below:

UNIVERSITY INVESTMENT MATURITIES

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The University's policy requires that operating funds be invested in fixed income securities and money market instruments. Fixed income securities shall be rated investment grade or better by one or more nationally recognized statistical rating organizations. Securities not covered by the investment grade standard are allowed if, in the manager's judgment, those instruments are of comparable credit quality. Securities which fall below the stated minimum credit requirements subsequent to initial purchase may be held at the manager's discretion. It is expected that the average credit quality of the operating funds will not fall below Standard & Poor's AA- or equivalent. At June 30, 2008 the University and the UROs had debt securities and quality ratings as shown in the charts below:

TOTAL	$ 241,119	$ 165,440	$ 25,787	$ 13,146	$ 10,536	$ 8,300	$ 17,910

Custodial Credit Risk: Custodial credit risk is the risk that in the event of the failure of the counterparty, the University will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Exposure to custodial credit risk relates to investment securities that are held by someone other than the University and are not registered in the University's name. The University investment policy does not limit the value of investments that may be held by an outside party. At June 30, 2008, the University's investments and deposits had no custodial credit risk exposure.

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of the University's investment in a single issuer. The University's policy provides that the total operating funds portfolio will be broadly diversified across securities in a manner that is consistent with fiduciary standards of diversification. This diversification is achieved by employing multiple investment managers and imposing maximum position limits for each manager. The University's manager guidelines for operating investments provide that non-U.S. government obligations may not exceed 10% per issuer and private mortgage-backed and asset-backed securities may not exceed 10% per issuer (unless collateral is credit independent of the issuer and the security's credit enhancement is generated internally, in which case the limit is 25% per issuer). Obligations with other issuers, other than the U.S. government, U.S. agencies, or U.S. government sponsored corporations and agencies, may not exceed 5%. As of June 30, 2008, not more than 5% of the University's and the URO's total investments were invested in securities of any one issuer, excluding securities issued or guaranteed by the U.S. government, mutual funds, and external investment pools or other pooled investments.

Foreign Currency Risk: Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. The University's operating fund investments generally are not exposed to foreign currency risk. The University does not have an overarching policy related to foreign currency risk; however, under the investment manager's guidelines, the portfolio's foreign currency exposure may be unhedged or hedged back into U.S. dollars. Cross hedging is not permitted. The U.S. dollar balances of the University's and the UROs' cash equivalents and investments exposed to foreign currency risk as of June 30, 2008 are categorized by currency below:

UNIVERSITY INVESTMENTS FOREIGN CURRENCY EXPOSURE

Securities Lending: To enhance the return on investment, the Board of Trustees of the University has authorized participation in a securities lending program. Through its custodian bank, the University loans securities to independent third parties. Such loans are secured by collateral consisting of cash, cash equivalents or U.S. Government securities and irrevocable bank letters of credit in an amount not less than 102% of the fair value of the securities loaned. Any collateral securities cannot be pledged or sold by the University unless the borrower defaults. The University receives interest and dividends during the loan period as well as a fee from the custodian. At June 30, 2008, the University has no credit risk exposure to borrowers because the amounts the University owes the borrowers exceed the amounts the borrowers owe the University. As of June 30, 2008, approximately $129,527,000 of the investments reported on the University's Statement of Net Assets were on loan, secured by collateral with a fair value of approximately $132,774,000.

NOTE 4 – ACCOUNTS, NOTES, AND PLEDGES RECEIVABLE

The Entity provides allowances for uncollectible accounts and notes receivable based upon management's best estimate of uncollectible accounts and notes at the Statement of Net Assets date, considering type, age, collection history of receivables, and any other factors as considered appropriate. Accounts receivable are reported net of allowances of $283,369,000 at June 30, 2008. Notes receivable are reported net of allowances of $2,877,000 at June 30, 2008.

The composition of accounts receivable and notes and pledges receivable at June 30, 2008 is summarized as follows:

ACCOUNTS RECEIVABLE, NET OF ALLOWANCE
(in thousands)

Receivables from sponsoring agencies	$	174,931
Hospital and other medical activities		75,335
Student tuition and fees, net of allowances		23,392
Auxiliaries, net of discounts and allowances		10,364
Medical service plan		40,844
Educational activities		18,383
Other		25,210
TOTAL	$	368,459

NOTES AND PLEDGES RECEIVABLE
(in thousands)

Student notes - University:		
Student notes outstanding	$	65,671
Allowance for uncollectible loans		(2,877)
Total student notes, net	$	62,794
Gift pledges outstanding - UROs:		
Operations	$	15,913
Capital		22,544
Total gift pledges outstanding		38,457
Less:		
Allowance and unamortized discount to present value		(11,196)
Total pledges receivable, net	$	27,261

NOTE 5 – CAPITAL ASSETS

Net interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. Net interest of $7,423,000 was capitalized during the year ended June 30, 2008.

Capital assets activity for the University and the UROs for the year ended June 30, 2008 is summarized as follows:

CAPITAL ASSETS FOR THE UNIVERSITY

NOTE 6 – ACCRUED SELF-INSURANCE, LOSS CONTINGENCY AND COMPENSATED ABSENCES

The University's accrued self-insurance liability of $177,168,000 at June 30, 2008 covers hospital patient liability; hospital and medical professional liability; estimated general and contract liability; and workers' compensation liability related to employees paid from local funds. The accrued self-insurance liability was discounted at a rate of 5.5% at June 30, 2008. Amounts increasing the accrued self-insurance liability are charged as expenses based upon estimates made by actuaries and the University's risk management division. The workers' compensation self-insurance liability of $16,757,000 at June 30, 2008 related to employees who are paid from State appropriations is included in the University's accounts payable. These claims will be paid from State appropriations in the year in which the claims are finalized, rather than from unrestricted net assets as of June 30, 2008.

Accrued self-insurance includes $124,287,000 at June 30, 2008 for the currently estimated ultimate cost of uninsured medical malpractice liabilities. Ultimate cost consists of amounts estimated by the University's risk management division and independent actuaries for asserted claims, unasserted claims arising from reported incidents, expected litigation expenses, and amounts determined by actuaries using relevant industry data and Hospital specific data to cover projected losses for claims incurred but not reported. Because the amounts accrued are estimates, the aggregate claims actually incurred could differ significantly from the accrued self-insurance liability at June 30, 2008. Changes in these estimates will be reflected in the Statement of Revenues, Expenses and Changes in Net Assets in the period when additional information is available.

The University has contracted with several commercial carriers to provide varying levels and upper limits of excess indemnity coverage. These coverages have been considered in determining the required accrued self-insurance liability. There were no settlements which exceeded insurance coverage during the last three years.

CHANGES IN ACCRUED SELF-INSURANCE
(in thousands)

Balance, beginning of year	$ 156,178
Claims incurred and changes in estimates	65,165
Claim payments and other deductions	(44,175)
Balance, end of year	177,168
Less: current portion	(48,591)
Balance, end of year - noncurrent portion	$ 128,577

Accrued compensated absences includes personnel earned but unused vacation and sick leave days, including the University's share of social security and medicare taxes, valued at the current rate of pay.

CHANGES IN COMPENSATED ABSENCES BALANCE
(in thousands)

Balance, beginning of year	$ 209,182
Additions/(Deductions)	4,126
Balance, end of year	213,308
Less: current portion	(17,048)
Balance, end of year - noncurrent portion	$ 196,260

NOTE 7 – BONDS AND NOTES PAYABLE

On June 18, 2008 the University issued Variable Rate Demand Auxiliary Facilities System Revenue Bonds, Series 2008 in the amount of $20,800,000. Proceeds from the Bonds will be used to fund various improvements to the Auxiliary Facilities System and to pay costs incidental to the issuance of the Bonds.

On July 19, 2007 the University issued $40,875,000 Variable Rate Demand Health Services Facilities System Revenue Bonds, Series 2007. Proceeds from the bonds funded the redemption of the Variable Rate Demand Health Services Facilities System Revenue Bonds, Series 1997A and paid cost incidental to the issuance of the bonds. This resulted in projected savings of $6,858,800 over the life of the issue at present value of approximately $6,062,800. The difference between the reacquisition price and net carrying amount of the old debt, loss on refunding, was $2,664,300. This loss is deferred and amortized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter.

On June 26, 2008 the University issued $41,215,000 Variable Rate Demand Health Services Facilities System Revenue Bonds, Series 2008. Proceeds from the bonds funded the redemption of the Variable Rate Demand Health Services Facilities System Revenue Bonds, Series 2007 on July 28, 2008 and paid costs incidental to the issuance of the Bonds. The difference between the reacquisition price and net carrying amount of the old debt, loss on refunding will be $3,134,000. The loss is deferred and amortized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter.

BONDS PAYABLE
(in thousands)

	Maturity Dates	Beginning Balance	New Debt	Principal Paid/Debt Refunded	Ending Balance	Current Portion
AUXILIARY FACILITIES SYSTEM -						
Current Interest Bonds	2008-2036	$ 781,220	$ 20,800	$ 12,120	$ 789,900	$ 13,920
Capital Appreciation Bonds	2008-2030	265,040		15,005	250,035	14,975

					1,118,061	126,679
Unamortized debt premium					33,388	1,261
Unamortized loss on refunding					(19,153)	(1,133)
TOTAL					$ 1,132,296	$ 126,807

Capital appreciation bonds of $250,035,000 outstanding at June 30, 2008 do not require current interest payments and have a net unappreciated value of $150,666,000. The University records the annual increase in the principal amount of these bonds as interest expense and accretion on bonds payable.

None of the University's bonds described above constitute obligations of the State of Illinois. Costs associated with the issuance of the Series 1991, 1993, 1996, 1999A, 1999B, 2000, 2001A, 2001B, 2001C, 2003A, 2005A, 2005B, 2006, and 2008 Auxiliary Facilities System Bonds; Series 1997 Willard Airport Bonds; Series 1997B, 2007, and 2008 Health Services Facilities Bonds; and Series 2000, 2003, and 2006A UIC South Campus Bonds have been recorded as deferred charges and are being amortized over the life of the related bond issue.

The UIC South Campus Series 2006A Bonds, the Auxiliary Facilities System Series 2005B and 2008 Bonds, and the Health Services Facilities System Series 1997B, 2007, and 2008 Bonds are variable rate bonds which bear interest at a defined weekly rate determined by the remarketing agents and are paid monthly. The required future interest payments for these variable rate bonds have been calculated using the current interest rate, based upon short term tax exempt rates, as illustrated on the table below. Other outstanding bond issues bear interest at fixed rates ranging from 3.00% to 7.96%.

VARIABLE RATES BONDS SHORT TERM TAX EXEMPT RATES AT JUNE 30, 2008 (in thousands)	
Bond Issue	Interest Rate at June 30, 2008
UIC South Campus, Series 2006A	5.00%
Auxiliary Facilities System, Series 2005B	1.52%
Auxiliary Facilities System, Series 2008	1.50%
Health Services Facilities System, Series 1997B	1.60%
Health Services Facilities System, Series 2007	7.00%
Health Services Facilities System, Series 2008	1.60%

Health Services Facilities System Variable Rate Debt and Interest Rate Swap Agreement

On April 2, 2007 the University entered into a variable-to-fixed interest rate swap agreement. The purpose of this interest rate swap was to hedge variable rate demand Health Services Facility System revenue refunding bonds planned to be issued in July 2007. The notional amount of the interest rate swap was $40,875,000 and equal to the planned par amount of the bonds. The University makes monthly payments to the counterparty equal to 3.534% times the notional amount and receives monthly payments from the counterparty equal to 68% of one-month LIBOR, commencing October 1, 2007. In the third and fourth quarters of Fiscal Year 2008, there was an unfavorable increase in the basis between the interest paid on the Series 2007 bonds and the variable payment received from the swap counterparty. This was primarily due to reduced demand for the bonds resulting from financial troubles encountered by the bond insurer, Ambac.

The University engaged a third-party consultant to calculate the "mark to market" or "market value" of the swap transaction. On June 30, 2008, the mark to market value of the swap was ($1,471,476). Since this is a negative number, it represents an approximation of the amount of money that the University would be required to pay the swap provider to terminate the swap. In accordance with governmental accounting standards, this amount is not required to be included in the accompanying financial statements.

The University has the option to terminate the swap early. The University or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. The University may terminate the swap if both credit ratings of the counterparty fall below BBB+ as issued by Standard & Poor's and Baa1 as issued by Moody's Investors Service. The counterparty credit rating by Standard & Poor's was A and by Moody's Investors Service was A2. If at the time of termination the swap has a negative fair value, the University would be liable to the counterparty for a payment equal to the swap's fair value.

The interest rate swap agreement with Lehman Brothers Commercial Bank transferred to the Series 2008 bonds on July 28, 2008.

UIC South Campus Variable Rate Debt and Interest Rate Swap Agreement

To facilitate the advance refunding of the UIC South Campus Development Project Series 1999 Bonds and, as a means to lower its borrowing costs, when compared against fixed-rate bonds at the time of issuance in February 2006, the University entered into two interest rate swaps in connection with its $53,700,000 variable-rate Bonds (UIC South Campus Development Project) Series 2006A. The intention of the swaps was to effectively change the University's variable interest rate on the Bonds to a synthetic fixed rate of 1.030% through August 1, 2007 and 4.292% thereafter, which includes the Bonds' current liquidity facility fee of 0.200%. In addition, there is a 0.080% current remarketing fee. In the third and fourth quarters of Fiscal Year 2008, there was an unfavorable increase in the basis between the interest paid on the Series 2006A bonds and the variable payment received from the swap counterparties. This was primarily due to reduced demand for the bonds due to the financial troubles encountered by the bond insurer, Financial Guaranty Insurance Company (FGIC).

The Bonds and related swap agreements mature on January 15, 2022, and the swaps' initial notional amount of $53,700,000 matches the $53,700,000 variable-rate Bonds. The swaps were entered at the same time as the Bonds were issued (February 2006). Starting in fiscal year 2011, the notional value of the swaps and the principal amount of the associated bonds decline. Under the swaps, the University pays the counterparties a fixed payment of 0.830% through August 1, 2007 and 4.092% thereafter and receives a variable payment equal to its cost-of-funds through February 3, 2010 and thereafter receives a variable payment equal to 68% of one-month LIBOR. On February 19, 2008, the variable payment that the University receives changed from its cost-of-funds to Securities Industry & Financial Market Association Index (SIFMA) plus 0.05% through February 3, 2010. On June 30, 2008, SIFMA plus 0.05% increased to 1.60%. This change occurred because the monoline bond insurance company FGIC was downgraded below AA. The credit ratings for the first counterparty by Standard & Poor's and Moody's Investors Service were AA and Aa2, respectively. The credit ratings for the second counterparty by Standard & Poor's and Moody's Investors Service were A+ and Aa3, respectively.

The University engaged a third-party consultant to calculate the "mark to market" or "market value" of the swap transaction. On June 30, 2008, the combined mark to market value of the two swaps was ($4,065,712). Since this is a negative number it represents an approximation of the amount of money that the University may have to pay the swap provider, JP Morgan, to terminate the swap. In accordance with governmental accounting standards, this amount is not required to be included in the accompanying financial statements.

The University has the option to terminate the swap early. The University or the counterparties may terminate the swaps if the other party fails to perform under the terms of the contract. The University may terminate the swap if both credit ratings of the counterparties fall below BBB+ as issued by Standard & Poor's and Baa1 as issued by Moody's Investors Service. If the swaps are terminated, the variable-rate Bonds would no longer carry a synthetic fixed interest rate. Also, if at the time of termination, the swaps have a negative fair value, the University would be liable to the counterparties for a payment equal to the swaps' fair value.

Pledged Revenues and Debt Service Requirements

The University has pledged specific revenues, net of specified operating expenses, to repay the principal and interest of revenue bonds. The following is a schedule of the pledged revenues and related debt:

PLEDGED REVENUES
(in thousands)

Bond Issue(s)	Purpose	Source of Revenue Pledged	Future Revenues Pledged [2]	Term of Commitment	Debt Service To Pledged Revenues (Current Year)
Auxiliary Facilities System (AFS)	Refundings, various improvements and additions to the System	Net AFS revenue, student tuition and fees	$ 1,645,240	2036	9.63%
Willard Airport	Refunding of Series 1987	Net Willard Airport revenue	273	2009	100.0%
Health Services Facilities System (HSFS)	Additions to System and Refunding	Net HSFS, Medical Service Plan revenue net of bad debt expense, College of Medicine net tuition revenue	122,900	2027	1.14%
UIC South Campus	South Campus Development Project[1] and Refunding	Defined Tax Increment Financing District (TIF) revenue, student tuition and fees, and sales of certain land in the UIC South Campus project	82,037	2023	2.94%
		Total Future Revenues Pledged	$ 1,850,450		

[1]An integrated academic, residential, recreational, and commercial development south of UIC's main campus

[2]Total future principal and interest payments on debt (in thousands)

Future debt service requirements for all bonds outstanding at June 30, 2008 are as follows:

DEBT SERVICE REQUIREMENTS
(in thousands)

	Principal	Interest
2009	$ 127,140	$ 40,915
2010	33,250	39,421
2011	34,850	38,540
2012	37,370	37,568
2013	38,155	36,455
2014-2018	204,400	166,264
2019-2023	231,660	134,793
2024-2028	210,440	90,059
2029-2033	205,040	42,078
2034-2038	95,125	6,927
TOTAL	$ 1,217,430	$ 633,020

Using the actual rates of 5.0% and 7.0%, respectively in effect as of June 30, 2008, debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same for their term, were as follows. As rates vary, variable-rate bond interest payments and net swap payments will also vary.

UIC SOUTH CAMPUS BONDS, SERIES 2006A
VARIABLE-RATE DEBT SERVICE REQUIREMENTS
(in thousands)

	Variable-Rate Bonds			
	Principal	**Interest**	**Interest Rate Swaps, Net**	**Total**
2009	$ 53,700	$ 336	$	$ 54,036
TOTAL	$ 53,700	$ 336	$	$ 54,036

VARIABLE-RATE DEBT SERVICE REQUIREMENTS
(in thousands)

	Variable-Rate Certificates			
	Principal	**Interest**	**Interest Rate Swaps, Net**	**Total**
2009	$ 40,875	$ 448	$	$ 41,323
TOTAL	$ 40,875	$ 448	$	$ 41,323

Certain bonds of the University have debt service reserve requirements. The Maximum Annual Net Debt Service for those bonds, as defined, is $15,388,900.

Advanced Refunded Bonds

The University has defeased bonds through advanced funding in prior years and, accordingly, they are not reflected in the accompanying statements. The amount of bonds which have been defeased as of June 30, 2008 consists of the following:

ADVANCE REFUNDED BONDS
(in thousands)

Series	Outstanding at June 30, 2008
1978-M	$ 6,245
1999	49,365
1999A	85,300
2000	10,785
2001B	55,315
TOTAL	$ 207,010

The Foundation has a demand note outstanding with interest at 2.98% and principal outstanding of $7,214,000. The change in the balance for fiscal year 2008 is as follows:

URO NOTES PAYABLE
(in thousands)

Balance, beginning of year	$ 6,402
Proceeds	1,283
Payments	(471)
Balance, end of year	$ 7,214

NOTE 8 – LEASEHOLDS AND OTHER OBLIGATIONS

Leaseholds payable and other obligations activity for the year ended June 30, 2008 consist of the following:

LEASEHOLDS AND OTHER OBLIGATIONS
(in thousands)

	Beginning Balance	Additions	Deductions	Ending Balance	Current Portion
University:					
Certificates of Participation	$ 440,770	$ 231,210	$ (83,290)	$ 588,690	$ 18,560

Total University	$ 498,040	$ 243,926	$ (90,566)	$ 651,400	$ 25,942
UROs:					
Annuities payable	$ 51,108	$ 2,783	$	$ 53,891	$ 6,904
Other liabilities	7,360		(869)	6,491	
Total UROs	$ 58,468	$ 2,783	$ (869)	$ 60,382	$ 6,904

The University leases various plant facilities and equipment under capital leases. This includes assets obtained with certificates of participation proceeds and recorded as capital leases, as well as other capital lease agreements funded through operations.

On January 4, 2008, the University issued Certificates of Participation Series 2007A, 2007B, 2007C, and 2007D. The 2007A Certificates were issued to acquire, construct, equip, and install certain facilities of the University of Illinois, as well as to refund the Series 1997 Certificates. The 2007B Certificates were issued to partially refund outstanding Certificates of Participation, Series 2001. The 2007C Certificates were issued to finance a portion of the cost of the College of Medicine Rockford National Center for Rural Health Professionals Facility. The taxable 2007D Certificates were issued to finance a portion of the cost of a Petascale Computing Facility, and related infrastructure costs. A portion of the proceeds from each of the Series 2007 Certificates was used to pay costs incidential to issuing the certificates. The refundings resulted in a projected cost of $20,203,000 over the life of the issue at a present value loss of $1,228,000. The difference between the reacquisition price and the net carrying amount of the old debt, loss on refunding, was $2,208,000. This loss is deferred and amortized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter.

Series 2007C and 2007D are variable rate certificates which bear interest at a defined weekly rate and are paid monthly. The required future interest payments for these variable rate certificates have been calculated using the current interest rate, based upon short term rates of 1.45% and 2.58% respectively, over the life of the certificates.

Certificates of Participation Variable Rate Debt and Interest Rate Swap Agreement

To facilitate the advance refunding of the Certificates of Participation (Utility Infrastructure Projects) Series 2001 A & B; and, as a means to lower its borrowing costs, when compared against fixed-rate bonds at the time of issuance in March 2004, the University entered into an interest rate swap agreement in connection with its $143,665,000 variable-rate Certificates of Participation (Utility Infrastructure Projects) Series 2004. The intention of the swap was to effectively change the University's variable interest rate on the certificates to a synthetic fixed rate of 3.855%, which includes the certificates' current liquidity facility fee of 0.09%. In addition, there is a 0.05% current remarketing fee.

The certificates and related swap agreement mature on August 15, 2021, and the swap's initial notional amount of $143,665,000 matches the $143,665,000 variable-rate certificates. The swap was entered at the same time as the certificates were issued (March 2004). Starting in fiscal year 2006, the notional value of the swap and the principal amount of the associated certificates began to decline. Under the swap, the University pays the counterparty a fixed payment of 3.765% and receives a variable payment computed as 100% of the SIFMA. Conversely, the certificates' variable interest rates are expected to approximate SIFMA. For fiscal year 2008, the certificates' average variable interest rate was approximately .06% below the SIFMA. The counterparty credit rating by Standard & Poor's was A+ and by Moody's Investors Service was Aa3.

The University engaged a third-party consultant to calculate the "mark to market" or "market value" of the swap transaction. On June 30, 2008, the mark to market value of the swap was ($4,070,918). Since this is a negative number, it represents an approximation of the amount of money that the University may have to pay a swap provider to terminate the swap. In accordance with governmental accounting standards, this amount is not required to be included in the accompanying financial statements.

The University has the option to terminate the swap early. The University or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. The University may terminate the swap if both credit ratings of the counterparty fall below BBB+ as issued by Standard & Poor's and Baa1 as issued by Moody's Investors Service. If the swap is terminated, the variable-rate certificates would no longer carry a synthetic fixed interest rate. Also, if at the time of termination the swap has a negative fair value, the University would be liable to the counterparty for a payment equal to the swap's fair value.

Using the actual rate of 1.45% in effect as of June 30, 2008, debt service requirements of the Series 2004 variable-rate certificates and net swap payments, assuming current interest rates remain the same for their term, were as follows. As rates vary, variable-rate interest payments and net swap payments will also vary.

UTILITY INFRASTRUCTURE CERTIFICATES OF PARTICIPATION, SERIES 2004 VARIABLE-RATE DEBT SERVICE REQUIREMENTS (in thousands)

	Variable-Rate Certificates		Interest Rate	
	Principal	Interest	Swaps, Net	Total
2009	$ 1,035	$ 2,040	$ 3,242	$ 6,317
2010	1,075	2,019	3,223	6,317
2011	6,570	1,964	3,134	11,668
2012	6,840	1,867	2,979	11,686
2013	7,120	1,770	2,813	11,703
2014-2018	47,470	7,110	11,335	65,915
2019-2023	70,690	2,106	3,349	76,145
TOTAL	$ 140,800	$ 18,876	$ 30,075	$ 189,751

Assets held under capital leases are included in capital assets at June 30, 2008 as follows:

ASSETS HELD UNDER CAPITAL LEASE (in thousands)

Land	$ 8,423
Buildings	111,975
Improvements	263,250
Equipment	170,173
Subtotal	553,821
Less: accumulated depreciation	144,310
TOTAL	$ 409,511

The net present value of outstanding capital leases at June 30, 2008 is:

OUTSTANDING CAPITAL LEASES (in thousands)

Certificates of Participation:	
Series 2001 UI Integrate	$ 16,625
Series 2003 South Farms	21,270
Series 2003 UI Integrate	31,700

Series 2007D	81,500
Other capital leases	56,002
NET PRESENT VALUE	$ 644,692

As of June 30, 2008, future minimum lease payments under capital leases is as follows:

FUTURE MINIMUM LEASE PAYMENTS UNDER CAPITAL LEASES (in thousands)

2009	$	52,284
2010		50,726
2011		46,726
2012		46,756
2013		51,735
2014-2018		270,113
2019-2023		231,608
2024-2028		153,727
2029-2033		9,270
Total minimum lease payments		912,945
Amount representing interest		(268,253)
NET PRESENT VALUE	$	644,692

Advanced Refunded Certificates of Participation

The University has defeased certificates through advanced funding in prior years and, accordingly, they are not reflected in the accompanying statements. The amount of certificates which have been defeased as of June 30, 2008 consists of the following:

ADVANCE REFUNDED CERTIFICATES (in thousands)

Series		Outstanding at June 30, 2008
1977 Utility	$	10,510
1996 Utility		51,485
2001A Utility		74,080
2001B Utility		56,900
2001 UI - Integrate		45,810
TOTAL	$	238,785

The University monitors environmental matters and records an estimated liability for identified environmental remediation costs. The estimated liability at June 30, 2008 is $5,441,000.

The University also leases various buildings and equipment under operating lease agreements. Total rental expense under these agreements was $11,046,000 for the year ended June 30, 2008. The future minimum lease payments (excluding those leases renewed on an annual basis) are as follows:

FUTURE MINIMUM OPERATING LEASE PAYMENTS (in thousands)

2009	$	7,773
2010		5,105
2011		3,479
2012		2,203
2013		1,721
2014-2018		5,265
2019-2023		128
2024-2026		47
TOTAL	$	25,721

At June 30, 2008, the Foundation had annuities payable outstanding of $53,891,000. Annuities payable represent an actuarial computation of the present value of future payments to annuitants.

NOTE 9 – NET ASSETS

As discussed in Note 1 to the financial statements, the Entity's net assets are classified for accounting and reporting purposes into one of four net asset categories according to externally imposed restrictions. The following tables include detail of the net asset balances for the University and the UROs including major categories of restrictions and internal designations of unrestricted funds.

UNIVERSITY NET ASSETS (in thousands)	
Invested in capital assets, net of related debt	$ 1,822,522
Restricted - nonexpendable	
Invested in perpetuity to produce income expendable for -	
Scholarships, fellowships and research	46,743
Restricted - expendable for -	
Scholarships, fellowships and research	232,410
Loans	77,089
Service plans	61,431
Retirement of indebtedness	23,028
Capital projects	2,262
Unrestricted -	
Designated for:	
Auxiliary	23,360
Hospital	68,908
Capital projects	56,114
Self supporting activities	10,030
Institutional support	28,538
Quasi endowments	101,435
Amount expected to be financed in future years	(202,308)
Undesignated	3,787
TOTAL	$ 2,355,349

URO NET ASSETS (in thousands)	
Invested in capital assets, net of related debt	$ 2,339
Restricted - nonexpendable	
Invested in perpetuity to produce income expendable for -	
Scholarships, fellowships and research	807,506
Restricted - expendable for -	
Scholarships, fellowships and research	375,852
Unrestricted	30,093
TOTAL	$ 1,215,790

NOTE 10 – FUNDS HELD IN TRUST BY OTHERS

The University and Foundation are income beneficiaries of several irrevocable trusts which are held and administered by outside trustees. The University and Foundation have no control over these funds as to either investment decisions or income distributions, thus the principal is not recorded in the accompanying financial statements. The fair value of these funds at June 30, 2008 and the amount of income received from these trusts during the year then ended were as follows:

FUNDS HELD IN TRUST BY OTHERS
(in thousands)

	University	Foundation
Fair value of funds held in trust by others	$ 40,383	$ 26,287
Income received from funds held in trust by others	$ 1,283	$ 1,577

NOTE 11 – STATE UNIVERSITIES RETIREMENT SYSTEM

The Entity contributes to the State Universities Retirement System of Illinois (SURS), a cost-sharing multiple-employer defined-benefit pension plan with a special funding situation whereby the State of Illinois makes substantially all actuarially determined required contributions on behalf of the participating employers. SURS was established July 21, 1941, to provide retirement annuities and other benefits for staff members and employees of the State universities, certain affiliated organizations, and certain other State educational and scientific agencies and for survivors, dependents, and other beneficiaries of such employees. SURS is considered a component unit of the State of Illinois' financial reporting entity and is included in the State's financial reports as a pension trust fund. SURS is governed by Section 5/15, Chapter 40, of the Illinois Compiled Statutes. SURS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by accessing the website at www.SURS.org or by calling 1-800-275-7877.

Eligible employees must participate upon initial employment. Employees are ineligible to participate if (a) employed after having attained age 68; (b) employed less than 50% of full-time; or (c) employed less than full-time and attending classes with an employer. Of those Entity employees ineligible to participate, the majority are students at the University.

SURS provides retirement, disability and death benefits. Members are eligible for normal retirement at any age after 35 years of service, at age 60 after 8 years of service or at age 62 after 5 years of service. There are also provisions for early retirement. Retirement benefits are based on certain formulas that generally are a function of years of service and the average salary based on the highest earnings of any four consecutive years. Disability benefits are paid to disabled members with two years of covered service, generally at 50% of basic compensation until the total benefits paid equal 50% of the total earnings in covered service. Death benefits are payable to survivors of an active member with one and one half years of covered service or of a former member with ten years of covered service. These benefits are payable until children attain the age of 18, to a spouse after age 50 and to a dependent parent after age 55. Benefits are equal to the retirement contributions and interest, a lump sum payment of $1,000, and a monthly annuity equal to a portion of the accrued normal retirement benefit based on specified formulas.

Plan members are required to contribute 8.0% of their annual covered salary and substantially all employer contributions are made by the State of Illinois on behalf of the individual employers at an actuarially determined rate. The current rate is 12.88% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the Illinois General Assembly. The University's contributions to SURS for the years ended June 30, 2008, 2007, and 2006 were $174,318,000, $138,499,000 and $101,570,000 respectively, equal to the required contributions for each year. The URO's contributions to SURS for the years ended June 30, 2008, 2007, and 2006 were $800,000, $719,000 and $573,000, respectively.

Entity employees hired prior to April 1, 1986 are exempt from contributions required under the Federal Insurance Contribution Act. Employees hired after March 31, 1986 are required to contribute 1.45% of their gross salary for Medicare. The Entity is required to match this contribution.

Employees may also elect to participate in certain tax-sheltered retirement plans. These voluntary plans permit employees to designate a part of their earnings into tax-sheltered investments and thus defer federal and state income taxes on their contributions and the accumulated earnings under the plans. Participation and the level of employee contributions are voluntary. The employer is not required to make contributions to these plans.

NOTE 12 – POSTEMPLOYMENT BENEFITS

The State provides health, dental, vision, and life insurance benefits for retirees and their dependents in a program administered by the Department of Healthcare and Family Services along with the Department of Central Management Services. Substantially all State employees become eligible for post-employment benefits if they eventually become annuitants of one of the State sponsored pension plans. Health, dental, and vision benefits include basic benefits for annuitants and dependents under the State's self-insurance plan and insurance contracts currently in force. Annuitants may be required to contribute towards health, dental, and vision benefits with the amount based on factors such as date of retirement, years of credited service with the State, whether the annuitant is covered by Medicare, and whether the annuitant has chosen a managed health care plan. Annuitants who retired prior to January 1, 1998, and who are vested in the State Employee's Retirement System do not contribute towards health, dental, and vision benefits. For annuitants who retired on or after January 1, 1998, the annuitant's contribution amount is reduced five percent for each year of credited service with the State allowing those annuitants with twenty or more years of credited service to not have to contribute towards health, dental, and vision benefits. Annuitants also receive life insurance coverage equal to the annual salary of the last day of employment until age 60, at which time the benefit becomes $5,000.

The State pays the Entity's portion of employer costs for the benefits provided. The total cost of the State's portion of health, dental, vision, and life insurance benefits of all members, including post-employment health, dental, vision, and life insurance benefits, is recognized as an expenditure by the State in the Illinois Comprehensive Annual Financial Report. The State finances the costs on a pay-as-you-go basis. The total costs incurred for health, dental, vision, and life insurance benefits are not separated by department or component unit for annuitants and their dependents nor active employees and their dependents.

A summary of post-employment benefit provisions, changes in benefit provisions, employee eligibility requirements including eligibility for vesting, and the authority under which benefit provisions are established are included as an integral part of the financial statements of the Department of Healthcare and Family Services. A copy of the financial statements of the Department of Healthcare and Family Services may be obtained by writing to the Department of Healthcare and Family Services, 201 South Grand Ave., Springfield, Illinois, 62763-3838.

NOTE 13 – COMMITMENTS AND CONTINGENCIES

At June 30, 2008 the University had commitments on various construction projects and contracts for repairs and renovation of facilities of approximately $135,775,000.

The University receives monies from federal and state government agencies under grants and contracts for research and other activities. The costs, both direct and indirect, charged to these grants and contracts are subject to audit and disallowance by the granting agency. The University believes that any disallowances or adjustments would not have a material effect on the University's financial position.

The University also receives monies under third-party payor arrangements for payment of medical services rendered at its hospital and clinics. Some of these arrangements allow for settlement adjustments based on costs and other factors. The University believes that any adjustments would not have a material effect on the University's financial position.

The University is a defendant in a number of legal actions primarily related to medical malpractice. These legal actions have been considered in estimating the University's accrued self-insurance liability. The total of amounts claimed under these legal actions, including potential settlements and amounts relating to losses incurred but not reported, could exceed the amount of the self-insurance liability. In the opinion of the University's administrative officers, the University's self-insurance liability and limited excess indemnity insurance coverage from commercial carriers are adequate to cover the ultimate liability of these legal actions, in all material respects.

The University's hospital and clinics are involved in regulatory audits arising in the normal course of business. On June 8, 2007, a notice was received from the Office of Inspector General on behalf of the Illinois Department of Healthcare and Family Services (HFS) indicating that the University received an overpayment of $14.8 million on behalf of Medicaid patients. During fiscal year 2008, the University submitted additional documentation and evidence of its positions. HFS conducted a reaudit and on June 18, 2008 issued a revised notice of audit findings reducing the overpayment from $14.8 million to $8.6 million. University management is in the process of contesting this overpayment and estimates its probable liability regarding this overpayment is approximately $8.0 million. This liability has been reflected in the University's financial position and results from operations. Please refer to Note 17 for subsequent events regarding this liability.

NOTE 14 – OPERATING EXPENSES BY NATURAL CLASSIFICATION

Operating expenses by natural classification for the year ended June 30, 2008 for the University and the UROs are summarized as follows:

UNIVERSITY OPERATING EXPENSES BY NATURAL CLASSIFICATION
(in thousands)

	Compensation and benefits	Supplies and services	Student aid	Depreciation	Total
Instruction	$ 613,575	$ 141,145	$ 3,956	$	$ 758,676
Research	371,610	195,403	1,933		568,946

NOTE 15 – SEGMENT INFORMATION

The following financial information represents identifiable activities for which one or more revenue bonds is outstanding. The Auxiliary Facilities System is comprised of University owned housing units, student unions, recreation and athletic facilities, and similar auxiliary service units, including parking. The Health Services Facilities System is comprised of the University of Illinois Hospital and associated clinical facilities providing patient care. The Willard Airport Facility is comprised of land, hangars, a terminal building, parking lots, runways, and related apron areas.

NOTE 17 – SUBSEQUENT EVENTS

On July 16, 2008, the University issued Variable Rate Demand UIC South Campus Development Project Revenue Refunding Bonds, Series 2008, in the amount of $54,245,000. The proceeds from these Series 2008 bonds will be used to refund and redeem all of the $53,700,000 aggregate outstanding principal amount of the Variable Rate UIC South Campus Series 2006A Bonds and to pay costs incidental to the issuance of the Series 2008 Bonds.

On July 28, 2008, the University refunded Variable Rate Demand Health Services Facilities System Revenue Refunding Bonds Series 2007 in the amount of $40,875,000. The proceeds from Series 2008 bonds were used to retire the Series 2007 debt. Please refer to Note 7 for details regarding this debt refunding.

Lehman Brothers Commerical Bank is the counterparty for the variable-to-fixed interest rate swap agreement which was transferred to the Health Services Facilities System (HSFS) Series 2008 on July 28, 2008. Lehman Brothers Holdings, Inc. filed for Chapter 11 bankruptcy protection on September 15th, 2008. Lehman Brothers Commerical Bank is a subsidiary of Lehman Brothers Holdings, Inc. Lehman Brothers Commerical Bank did not file for bankruptcy. Lehman Brothers Commerical Bank was downgraded to B3 by Moody's on September 15, 2008 and to D by Standard & Poor's on September 16, 2008. This downgrade gave the University the option to terminate the HSFS Series 2008 interest swap agreement. The mark to market value of the swap on September 17, 2008 was ($2,915,000). This is approximately the amount that the University would have to pay to terminate the interest rate swap.

The University has outstanding bonds and certificates of participation that have variable interest rates. These interest rates are tied to various indexes which reset on a weekly basis. Subsequent to year-end, the interest rates on these variable rate bonds and certificates of participation fluctuated upward due to volatile market conditions. After September 2008, except for Certificates of Participation Series 2007 C and D, these fluctuations in interest rates have trended downward to rates similar to those disclosed at June 30, 2008. The interest that was paid, after year-end and prior to issuance of this report, due to these fluctuations did not have a material impact on the overall financial position of the University.

On August 22, 2008, the University received a letter from the Office of Inspector General relating to the audit by the Illinois Department of Healthcare and Family Services mentioned in Note 13. The letter stated the overpayment owed by the University was reduced to approximately $5 million dollars.

During fiscal year 2008, financial markets as a whole have incurred declines in values. Subsequent to fiscal year end, the University's investment portfolio has also incurred a decline in the values reported in the accompanying financial statements. However, because the values of individual investments fluctuate with market conditions, the amount of investment losses that the University will recognize in its future financial statements, if any, cannot be determined.

This information is an integral part of the accompanying financial statements.

ATTACHMENT H - Broadband Subscriber Estimates

Instructions: Using the table below, please estimate the number of subscribers for each distinct type of service offering on a quarterly basis over the five year forecast period. Combine all service pricing tiers of broadband data services into a single service offering. The subscriber projections must be described separately by the type of services offered, and by type of entity (households, businesses, "strategic institutions" i.e., critical community facilities, community anchor institutions, and public safety entities) to which services are offered. For last mile subscribers, please also provide, on a separate sheet, your estimated take rate (the percentage of total customers passed who will subscribe to your service), along with a brief description of the methodology used to forecast these subscribers/take rates. Middle mile applicants should indicate their subscriber forecasts in terms of the entities served via the last mile service providers, community anchor institutions, or public safety entities that are connected to their middle mile network. Middle mile applicants should also provide a reasoned basis for these subscriber forecasts (e.g., agreements in principle with existing or planned last mile service providers, market studies, etc).

We are predicting that roughly 54% of the households that are passed by the UC2B pilot FTTH system will subscribe to the UC2B Community Network Service (UC2B CNS). Having done the door-to-door research to determine if these neighborhoods qualify as underserved, we know that slightly fewer than 40% of the households already have some form of broadband access.

From looking at the local competitive offerings, we know that the UC2B CNS will be faster and less expensive than anything else available in the market, so we believe there is a good chance converting upwards of 75% of the existing broadband subscribers in these neighborhoods to Big Broadband. That alone would give UC2B a just under a 30% market share.

Of the remaining 61% that did not have broadband at the time of the survey, we believe that we can sign up roughly 41% of that group. Big Broadband will be a social movement in this community. The Ministerial Alliance has discussed having a Big Broadband Sunday in the spring, where each of the ministers will devote some of his or her sermon to promoting Big Broadband. The UC2B Sustainable Broadband Adoption proposal will have field workers called "cybernavigators" working in these neighborhoods and promoting Big Broadband adoption.

Installing fiber to the curb in these low-income underserved neighborhoods will be a very visible event. Every resident will know what is going on, and information on signing up for UC2B service will be readily available. Every property owner will be solicited for an easement to build from the curb to the premise, so again awareness of this project should be very high.

We are proposing that all installation costs in low-income households be paid for by the BTOP grant, so barrier to entry will be very low. We are working with the University and the State of Illinois to streamline a process for recycling surplus University and State-owned computers into low-income homes. From our survey, we know that more than 60% of all homes in our proposed funded last mile service areas have at least one working computer. Getting most of those people to subscribe to Big Broadband is a reasonable goal.

After the BTOP grant has run out, we are looking to expand the areas of UC2B Last Mile FTTH coverage, but other ISP's may beat us to the punch in some areas of town. The UC2B Middle Mile fiber rings will create the possibility for any ISP to get significant bandwidth very close to its potential customers. On average there will be interconnection points every 800 feet on the UC2B Middle Mile rings. While that facilitates future UC2B FTTH build outs, it also presents hundreds of places for local ISP's to attach their customers and their networks.

Income Statement

Question 50 - Business Plan Assumptions

Assumption	Value	What it Means	Why it is reasonable
Project Start Date	2010	Operations start 45 days after notice of funding by NTIA	It will take a while to get the paperwork finalized and it is easier to track on a calendar year basis rather than Nov 7th through Nov 6th.
Borrowing required in 2011	$141,011	Only 3 months of actual operations in 2010	It will take 9 months to do the detailed engineering and the construction necessary to be able to turn up the first customers.
Borrowing required in 2012	$2,000,000	The ARRA grant funded constriction will be finished by October of 2011	This allows for the steady continued addition of last-mile service areas
Borrowing required in 2013	$2,500,000	More borrowing to fund expansion	This allows for the steady continued addition of last-mile service areas
Borrowing required in 2014	$2,500,000	More borrowing to fund expansion	This allows for the steady continued addition of last-mile service areas
Cost of capital	6.00%	UC2B will need to borrow money to expand	This is probably a conservative rate, given that the partners in UC2B have a variety of long-term bonding options available to them.
Amortization of borrowed funds	10 years	Municipalities qualify for long-term financing	This is a 20-year project, so a 10-year loan is reasonable.
Inflation Factor	3.00%	- General price increase (decrease) - proxy for CPI	Reflects current economic conditions
Wage Inflation	3.00%	- for specific jobs and wages (HEADCOUNT section below)	Reflects current economic conditions
Labor Overhead	30.00%	- assumed load for labor (insurance, FICA, taxes, etc)	Reflects current economic conditions
Bad Debt	2.00%	- percent of total revenue	Reflects current economic conditions

Depreciation Life	**Years**		
FTTP	20	- fiber set equal to useful life	Typical industry numbers
Buildings	30	- all else set equal to useful life, with replacement	Typical industry numbers
Inside Plant	5	made at end of useful life at the same cost	Typical industry numbers
Electronics	5	as the original cost.	Typical industry numbers
New Sites	20		Typical industry numbers
Vehicles	5		Typical industry numbers
Network Mgt Gear	5		Typical industry numbers
Office 2	5		Typical industry numbers
Misc. Other	5		Typical industry numbers
Salvage Value	10%	- of cost (residual value)	Typical industry numbers

Soft Costs	**% of Total Cap-ex**		
Engineering	2.00%		Typical industry numbers for the size of the contemplated project
OSP const. Mgt	1.00%		Typical industry numbers for the size of the contemplated project
Start-up	2.00%		Typical industry numbers for the size of the contemplated project
Other	1.00%		Typical industry numbers for the size of the contemplated project
Project Mgt Fee	5.00%		Typical industry numbers for the size of the contemplated project
Training	1.00%		Typical industry numbers for the size of the contemplated project

Amortization Life	Years		
Engineering	20	- set equal to life of the project	Typical industry numbers
OSP const. Mgt	10		Typical industry numbers
Start-up	5	- arbitrary amortization term	Typical industry numbers
Other	5		Typical industry numbers
Project Mgt Fee	20	- set equal to life of the project	Typical industry numbers
Training	5		Typical industry numbers
Salvage Value - Amort	10%	- % of cost	nominal value, typical for electronics at end of useful life

Operating Cost Assumptions

Network Maintenance

Backbone Network	$1,500	- per route mile per year	covers all maintenance, locates, repairs; typical for urban area
Cost to install a new FTTH or VLAN customer	$1,500	Includes fiber from curb, electronics on both ends and inside wiring.	typical industry number

UNIVERSITY OF ILLINOIS

HCHB, Room 4812
Washington, DC 20230

Dear Sir/Madam;

I am writing in regard to the University of Illinios at Urbana-Champaign's involvement in the Urbana-Champaign Big Broadband Consortium. While this critical infrastructure project will provide a great benefit to the campus and local community, it would have been impossible for the university to pursue this project without federal support. During four of the last five years, the Urbana-Champaign campus fully expended its unrestricted operating funds. As the campus budget officer, I certify that without federal grant assistance, it would be impossible for the campus to implement this project.

Please let me know if you require additional information.

Cordially,

Michael Andrechak

Broadband Infrastructure Application Submission to RUS (BIP) and NTIA (BTOP)

Certification Requirements BTOP

U.S. Department of Commerce
Broadband Technology Opportunities Program

(i) I certify that I am authorized to submit this grant application on behalf of the eligible entity(ies) listed on this application, that I have examined this application, that all of the information and responses in this application, including certifications, and forms submitted, all of which are part of this grant application, are material representations of fact and true and correct to the best of my knowledge, that the entity(ies) that is requesting grant funding pursuant to this application and any subgrantees and subcontractors will comply with the terms, conditions, purposes, and federal requirements of the grant program; that no kickbacks were paid to anyone; and that a false, fictitious, or fraudulent statements or claims on this application are grounds for denial or termination of a grant award, and/or possible punishment by a fine or imprisonment as provided in 18 U.S.C. § 1001 and civil violations of the False Claims Act.

(ii) I certify that the entity(ies) I represent have and will comply with all applicable federal, state, and local laws, rules, regulations, ordinances, codes, orders and programmatic rules and requirements relating to the project. I acknowledge that failure to do so may result in rejection or deobligation of the grant or loan award. I acknowledge that failure to comply with all federal and program rules could result in civil or criminal prosecution by the appropriate law enforcement authorities.

(iii) If requesting BTOP funding, I certify that the entity(ies) I represent has and will comply with all applicable administrative and federal statutory, regulatory, and policy requirements set forth in the DOC Pre-Award Notification, published in the Federal Register on February 11, 2008 (73 FR 7696), as amended; DOC Financial Assistance Standard Terms and Conditions (Mar. 8, 2009); DOC American Recovery and Reinvestment Act Award Terms (April 9, 2009); and any Special Award Terms and Conditions that are included by the Grants Officer in the award."

ASSURANCES - CONSTRUCTION PROGRAMS

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain Federal assistance awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.

2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.

3. Will not dispose of, modify the use of, or change the terms of the real property title, or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with Federal assistance funds to assure non-discrimination during the useful life of the project.

4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.

5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progress reports and such other information as may be required by the assistance awarding agency or State.

6. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.

7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.

8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).

9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

10. Will comply with all Federal statutes relating to non-discrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681 1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) underwhich application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.

11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.

12. Will comply with the provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333) regarding labor standards for federally-assisted construction subagreements.

14. Will comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.

15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).

16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq).

18. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-1 33, "Audits of States, Local Governments, and Non-Profit Organizations."

19. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.

FORM CD-511
(REV 1-05)

U.S. DEPARTMENT OF COMMERCE

CERTIFICATION REGARDING LOBBYING

Applicants should also review the instructions for certification included in the regulations before completing this form. Signature on this form provides for compliance with certification requirements under 15 CFR Part 28, "New Restrictions on Lobbying." The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Department of Commerce determines to award the covered transaction, grant, or cooperative agreement.

LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 15 CFR Part 28, for persons entering into a grant, cooperative agreement or contract over $100,000 or a loan or loan guarantee over $150,000 as defined at 15 CFR Part 28, Sections 28.105 and 28.110, the applicant certifies that to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in conncection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying." in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure occurring on or before October 23, 1996, and of not less than $11,000 and not more than $110,000 for each such failure occurring after October 23, 1996.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

In any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure occurring on or before October 23, 1996, and of not less than $11,000 and not more than $110,000 for each such failure occurring after October 23, 1996.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above applicable certification.

Federal Use Only:	Authorized for Local Reproduction Standard Form LLL (Rev. 7-97)

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.
2. Identify the status of the covered Federal action.
3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.
4. Enter the full name, address, city, State and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.
5. If the organization filing the report in item 4 checks "Subawardee," then enter the full name, address, city, State and zip code of the prime Federal recipient. Include Congressional District, if known.
6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, State and zip code of the lobbying registrant under the Lobbying Disclosure Act of 1995 engaged by the reporting entity identified in item 4 to influence the covered Federal action.

    (b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a). Enter Last Name, First Name, and Middle Initial (MI).
11. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

FORM CD-512
(REV 12-04)

U.S. DEPARTMENT OF COMMERCE

CERTIFICATION REGARDING LOBBYING
LOWER TIER COVERED TRANSACTIONS

Applicants should review the instructions for certification included in the regulations before completing this form. Signature on this form provides for compliance with certification requirements under 15 CFR Part 28, "New Restrictions on Lobbying."

LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 15 CFR Part 28, for persons entering into a grant, cooperative agreement or contract over $100,000 or a loan or loan guarantee over $150,000 as defined at 15 CFR Part 28, Sections 28.105 and 28.110, the applicant certifies that to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure occurring on or before October 23, 1996, and of not less than $11,000 and not more than $110,000 for each such failure occurring after October 23, 1996.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

In any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure occurring on or before October 23, 1996, and of not less than $11,000 and not more than $110,000 for each such failure occurring after October 23, 1996.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above applicable certification.
