1. We recommend the postponement of Branch status until the end of phase two for the following reasons:
 - A. The retention of project status offers a better structure for implementing innovative programs and projects.
 - B. The communications problems involving the Advisory board, the Joint board, the public libraries and the project director are too vast to make branch status realistic at this time.
 2. In order to better communications among the aforementioned bodies, and to insure adequate representation for the Douglass Center Project we further recommend the following:
 - A. Membership on the Joint Board of persons from the Douglass Center Advisory Committee.
 - B. Membership on the Champaign Library of persons from the Douglass Center Project Advisory Committee.
- We strongly urge the Joint Board to take the steps necessary to realize these recommendations.
