Aiding local educational programs and teachers in curriculum development and book selection is another of our functions. The director has found the most successful and functional operative devices to be mobility, both social and physical.

Contributions

Our contributions have been numerous and include: books, furniture, supplies and materials for children and currency.

Inter-Library Cooperation

All of the services available to our patrons cannot be housed in this one room. Material not available here may be requested from the Urbana Free Library and Champaign Public Library. If these two libraries do have the materials requested they in turn notify the Lincoln Trails System which searches its' thirty-seven member libraries. Champaign and Urbana libraries have afforded the Douglass Center Project total use of their facility. The Lincoln Trails Symstem provides as many services as possible to a non-member library. The success of the project is due in part to the cooperation of these libraries.
