

The ACCESS Initiative

Committees, Workgroups, and Task Force Application

Workgroups, committees, and task force have been established to ensure that the community (parents, youth, providers, stakeholders, and every interested person) is involved in helping us build, transform, and create a system of care in Champaign County. In order for the committees, workgroups, and task force to be effective the size of some groups will be limited. However youth, family and community representation will always be prioritized; and each workgroup, task force or committee is required to have at least 1 youth and 1 parent representative.
