COMMUNITY INFORMATION CORPS

We are:

Students committed to using our skills to create change in communities

Specialized?

We currently do have a specialization “Community Informatics” within the School of Information, but we welcome and encourage everyone to join!

Who we
are

Who can join:

Anyone! We welcome anyone in the Information field to contribute their skills

What we do:

Support local projects & connect School of Information with a service framework

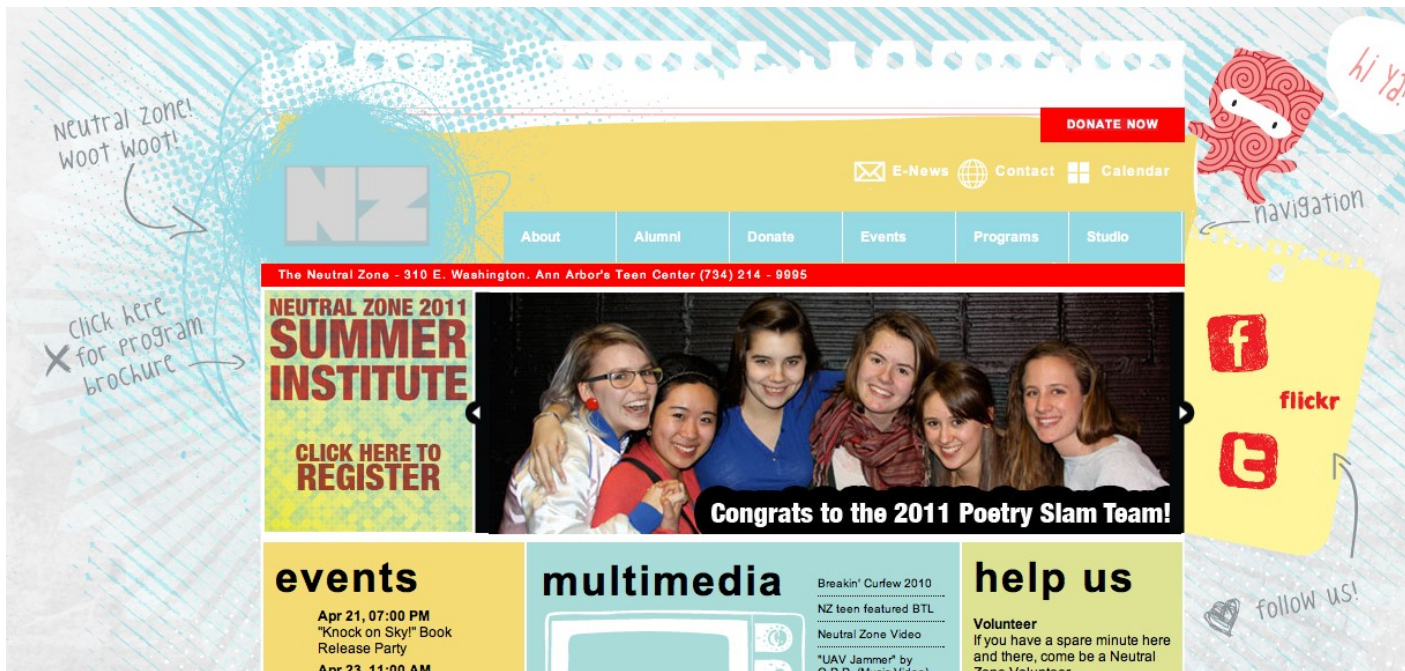

Support:

We are generously supported by the Kellogg Foundation

Who we worked with (2011)

- The Neutral Zone
- National Alliance for Mental Illness

Neutral zone

The Neutral Zone is a center for teens to explore artistic, cultural, and leadership opportunities.

Our goal: organize their data!

- Prevent data duplication
- Make and create consistent formatting

National Alliance on Mental Illness

Celebrities and Mental Illness

Confronting Social Stereotypes

CATHERINE ZETA-JONES PUTS MENTAL ILLNESS IN SPOTLIGHT When the actress revealed that she lives with bipolar II disorder many people began asking questions about mental illness.

for
mental
illness

NAMI is an nationwide non-profit organization that provides programming and resources for people and their supporters

Our goals:

- Create a best methods practice model for conducting surveys and collecting both quantitative and qualitative data

Re-imagining community informatics at university of michigan

- **Current needs:**
 - **Stability:** faculty support
 - **Rebranding:** our mission statement, contextualizing our services within the School of Information
 - **Framework:** create an infrastructure to sustain CI Corps in community projects, and also within the School of Information

Thanks!
