Language Staff Increases to 11

In this jet age, learning to speak, read, and write in a foreign language is more necessary than ever. The C.H.S. foreign language department meets today's needs by offering Spanish, French, German, and Latin. Each year a greater number of students enroll in foreign language classes. To meet this de-

mand our language department has adopted the Holt, Rinehart, and Winston method of teaching which emphasizes first learning to speak and understand a language, and then mastering the literature and writing skills of the language.

Ever study math from a mimeographed book? This year several classes at C.H.S. are using algebra and geometry books so new they haven't even been printed in hardback form. These books are experimenting with the new discovery method to present old facts. They were developed by the University of Illinois Committee on School Mathematics (UICSM). Two college courses in algebra and trigonometry are also being taught for University of Illinois credit. As in previous years, some seniors are allowed to take a course such as calculus on the University campus.

Unlike a west-side gang in a recent movie, the JETS of C.H.S. is an organization, sponsored through the science department, for students interested in engineering. Those interested in a phase of medicine can follow biology with microbiology and anatomy. These courses have the benefit of new texts this year. For experience in lab work, chemistry offers opportunities from composing common table salt to gaining experience in observation by stating facts concluded by watching a burning candle. Those who have a deeper interest in science may receive the Rensselaer Polytechnic Institute awards or the Bausch and Lomb awards.

Have you been wondering? Wondering, for instance, why high school sophomores and juniors are carrying around copies of "Little Red Riding Hood" and "The Little Red Hen"? The answer is the home-ec. program, which provides for actual training in child care by working with children as well as textbooks. Among the variety of courses offered, two selections for each grade, is naturally, training in cooking. For those interested in this area there are Betty Crocker scholarships available at the state and national level. A special course is offered for those taking no other high school home-ec. In this course the class chooses the home-ec. problems they wish to study.

Have you ever wondered about the huge noisy machines in the large rooms at the north end of first and second floors? Those are the shop classrooms where, under department head Mr. Griest, boys are enrolled in such courses as printing, wood, machinery, or drafting for architectural or engineering work.

The Marching Maroons, our trophy winners in action.

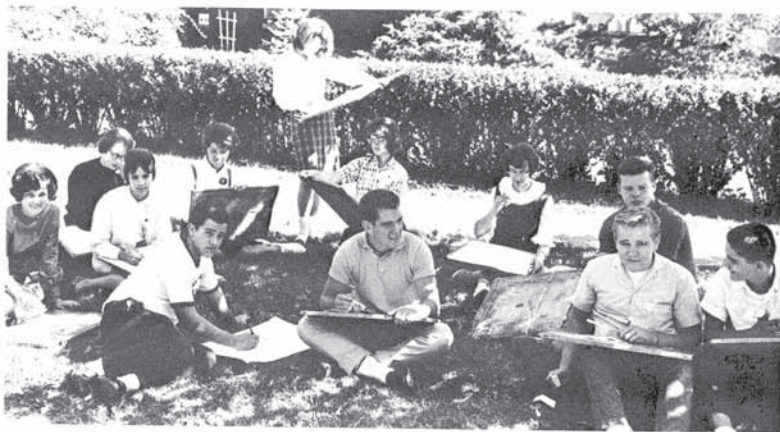

While Urbana High School came in with a second, the CHS marching band won first place competing against sixteen other bands in the First Annual High School Band Day at the University of Illinois, November 2, 1963.

Besides band, which has a membership of about 100 and is directed by Mr. Gilbert Papp, the music department includes four choirs (A Cappella, Concert Choir, and two Sophomore Choirs) totaling about 270 students directed by Mr. William Olson, and 30 high school orchestra members directed by Mr. Jerald Slavich.

Mr. Verrollton Shaul, the head of the music department, is also the unit four coordinator of music.

A Cappella Choir purchased new robes this year, which are beige, maroon, and white. Some groups which have developed from A Cappella are Vocalettes, made up of 27 girls; Troubadors, consisting of 30 boys; and Madrigals, a mixed group. Vocalettes, during the summer of 1963, performed at Atlantic City, New Jersey.

Two Aids for Career Preparation

Should I stay in school? Is it necessary for me to take a science course? These are just a couple of the questions asked of counselors by students. The counseling center is supplied with the latest college pamphlets and serves as a registrar for such important tests as the Scholastic Aptitude Test, Achievement Tests, and the National Merit Scholarship Test. (M) Whoops! Pardon us! We mean to say that our business education department offers

a wide variety of practical courses for students wishing to obtain positions in the field of business either directly after high school graduation or to major in business in college.

Two units are offered which give students special instruction in the operation of special I.B. M. equipment. This skill is in high demand by several local organizations, such as the University of Illinois, which needs operators for their equipment.

"Watch out for that stop sign!" "Eeeeeek!" "Screech!" Behind-the-wheel driver education is only one of the facets of the CHS physical education department. The girls' P.E. classes cover such units as volley ball, tumbling, basketball, and speed-a-way. The boys take part in daily calisthenics, such as push-ups, "Chins," "dips," and rope climbing. Due

to a larger number of students enrolled in P.E. classes than in previous years, accommodation for the classes has become a tremendous problem. The gyms are not sufficient, so classes take to the outdoors when weather permits and several girls' classes meet in the cafeteria.

Vocation Through Education

YOUTH is not an abstract title. It is compiled of initials standing for Your Opportunity Understanding Training Habilitation. As the name suggests, Youth Project is a program based on preparation for trade school or immediate employment after graduation. The goal of Youth Project is education for vocation. After the age of sixteen the students work half days under vocational counselors' supervision. The program also includes training in home ec. and shop as well as work with ditto, typewriters, and other business machines. Approximately thirty junior high age students also participate in the program.

Tiger Teeth for sale! "Beat Urbana Week," preceding the CHS-UHS annual basketball game, was highlighted by Student Council members selling carved wooden "tiger teeth" to be worn on twine necklaces by loyal Champaign High students. Student Council also sold pennants, Christmas candy cones, and pep badges and ribbons advertising football and basketball games.

As a member of the National Association for Student Councils, the Council sent a representative last summer to Ann Arbor, Michigan, for the annual national convention.

This year Champaign High was chosen to host the district Student Council Convention in October, 1963. The theme of the convention was, "Conformity of Youth — Why?" and was carried out through talks by two guest speakers, and group discussions. Nancy Evans, C.H.S. senior presided over the convention.

Another activity of the Council was the collection of toys, food, and clothing to provide a merry Christmas for three local needy families.

Homeroom Delegates

The House of Representatives in action, led by Jan Moon.

A branch of the C.H.S. student government in its second year of operation is the House of Representatives, whose members are elected from their homerooms. Alternates are also chosen to fill in if the regular member is unable to attend.

The House is similar in structure to the Student Council, with its own constitution, which may be amended by vote of the membership. The organization, which holds its meeting during activity period, tries to serve as a focal point for problems, suggestions, and ideas of the student body concerning school policies.

The House of Representatives is responsible for the C.H.S. Inter-state Exchange, a program which enables selected students to learn about the operation, curriculum, and students of schools in other parts of Illinois by attending them for one week.

Special committees are set up as needs arise. One such committee chooses the Inter-state Exchange students, using original paragraphs of the applicants as part of the criteria.

Honor Students Recognized For High Marks, Citizenship

Honor society hopefuls crowd around the list of new prospective members.

"The doors of wisdom are never closed" goes one of the many Honor Society slogans seen on posters in the halls encouraging students to study harder and improve their grades.

The Illini Chapter of the National Honor Society is an honorary organization for students fulfilling scholastic requirements, attaining leadership, giving service for the benefit of the school, and possessing admirable character traits.

To become eligible, juniors must maintain a 4.75 scholastic average and seniors, a 4.50, as well as showing satisfactory citizenship. An advisory committee for the society, called the "faculty council," is made up of twelve C.H.S. teachers.

A new rule was effected this year whereby, if a senior's scholastic average drops to 4.50 and he was admitted into the society on a 4.75 as a junior, he will be allowed to remain a member.

Several money-making projects, including a hop after a game, were planned to cover the cost of an initiation banquet in the spring.

Prom, Commencement, Spring Sports

Trying to meet ad layout deadlines are Carol Rayburn and Jo Ellen Troxell.

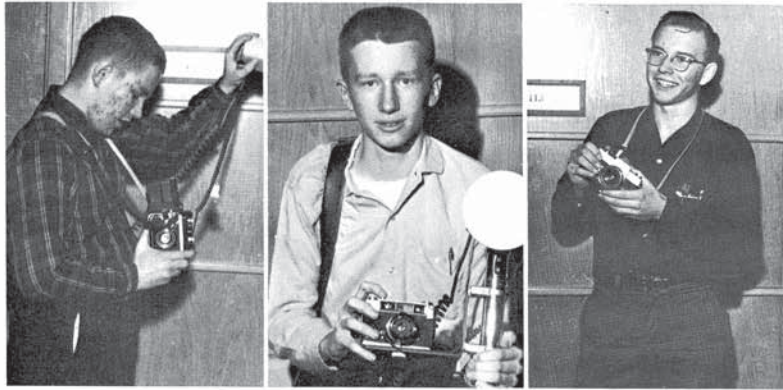

This year for the first time, the Maroon staff sent its editor to a two-week yearbook workshop at the University of Wisconsin, where students, under the guidance of Professor Glenn Hanson of the University of Illinois, drew layouts, and planned pictures for a practice yearbook prepared during the session.

This year the Maroon was not published by a local company as in the past; instead, it was sent to a publishing house which specializes in yearbooks, the Inter-Collegiate Press in Mission, Kansas.

Commencement, late spring sports, and the junior-senior prom are being included in the '64 Maroon; in a special sixteen-page spring supplement available to everyone who purchased a yearbook.

The National Scholastic Press Association awarded the '63 Maroon a first-class rating, a higher rating than that for the previous year's book.

Talent With a Pen

"Sir Wallace Marmaduke Malcolm," "Fingers," and "The Wishi-Washy Wilderness" are three intriguing titles from a recent *Literary Chronicle*. This year's issue promises articles just as exciting.

The *Literary Chronicle* is a yearly publication which is distributed at no cost to each member of the student body at the end of the school year. Under the direction of Mrs. Alice Harnish, the junior and senior editors compile material written by C.H.S. students in English classes. The best themes, poems, essays, short stories, book reviews, and movie reviews are included in the booklet. Plans were made for a contest open to all Champaign High students to design the cover for the *Literary Chronicle* for a prize of five dollars.

Heading the *Chronicle* staff are: Chuck Burtis, Business Manager; Cheryl Nance, and Vicki Morris, Co-Editors.

Chronicle

The high quality of the C.H.S. newspaper, the *Chronicle*, is evident in its selection as president of the Illinois State High School Press Association (ISHPA) for the school year 1963-64. As president, the *Chronicle* will send a representative to the next fall convention to speak and to announce the winner of the honorary title for the following year.

Members of the *Chronicle* staff attended newspaper workshops in Chicago, Jacksonville, and Champaign, Illinois, for high school editors to learn to improve the newspaper.

Heads ISHPA

An Editorial Board was established this year to be responsible for deciding the stand the *Chronicle* would take concerning controversial school issues. The Editorial Board consists of the editors of the *Chronicle* and a representative from each class.

The *Chronicle* sponsored its first Christmas writing contest open to all C.H.S. students. Some of the best poems, short stories, and essays were printed in the *Chronicle*. The authors of the winning entries were awarded five dollars.
