

# Building the Faith Based Network to Create ACCESS

**Mission:** To Build a Trauma and Justice Informed System of Care designed to create a healed community, which works to ensure that youth and their families are: resilient, resourceful, responsible, and restored.

Defining Resources	How do you help people in your congregation and the community with basic needs?	Does your organization provide counseling to members and non-members?	Do you provide access for the community to use computers or technology?	Does your organization provide advocacy for court support, child welfare, and or crisis, etc.?	Does your organization provide respite care for people that need a break?	What services do you provide for people that are not members of your organization?

<b>Defining Resources</b>	How does your organization follow up with people that have come for help? Do you check to see if they are better?	Does your organization have accessible (on a bus line, wheel chair access, well lit) space for the community to use for meetings, family visits, community events, and youth recreation? For how many people?	Does your organization have a Not For Profit Status... 501(c) 3?	What other organizations do you collaborate with	What kind of training, resources, and expertise do you or members of your organization have to offer? (For example, How to run a food pantry, Fundraising, Event Planning, Youth programming, Publicity-etc)	Is your organization will to provide/coordinate transportation for meetings, medical appointments, and activities for youth and families of the ACCESS Initiative?
