## U.H.S. Expands Interests

Education at Urbana High can be comprehensive. In addition to, or as part of, the traditional program, students may elect work-study classes or participate in a senior elective internship program which places students in jobs or professions for part or all of the school day. PUPS, a unique student, parent and young child program, brings parents and their children into the school. A Nurse's Assistant program allows students the opportunity to train to be a licensed assistant by the end of a high school career. Housing construction classes give students a chance to learn all phases of building from the planning to the interior finish. Other programs such as Sea Explorers prepare students for summer and vacation experiences with environmental studies. Independent studies provide for individual exploration in study areas. A class in stage lighting gives drama students a look at the theater scene from a technical point of view. A Principal's Scholar Program offers incentive to achieve. Learning at this school can be a full experience.

## *Tiger Night Held In UJHS Gym*

Student Senators once again proved their commitment to serving the students of the school and the community. The candy and pop machines maintained by Senate provided something good to munch on as well as some good funding for school activities. The annual Thanksgiving dinner was the expected success. Main attractions at the annual auction were Mr. Gremer and Mrs. Ashenfelter. He provided the voices, and she provided the face for the infamous pie auction. Tiger Night was bigger and better than other years. Senate continued its service tradition in style.

## Rosemary — Always Remembrance

Being editor this year has been rewarding for me. I hope when you look back at this year's book you will see what happened and remember the good times you had at Urbana High School. I would like to thank Mrs. Sherry McClellan and my staff for the long hours they spent helping me create and product the 1984 Rosemary.
