

Spending time after school, Steve Hartrick tries to discover a sensible solution to a problem and ace his math course.

Too anxious to wait for their test results, Vicki Westfall and Mary Jackle check with Mrs. Schuh immediately after school.

The finer points of a slide rule are discovered by Dave Queller and Lee Touchberry as they determinedly work on one of many chemical equations, using mathematical laws.

Looking on with amazement and wonder Jim Chow watches Steve Glazer as he pours water into a long tube.

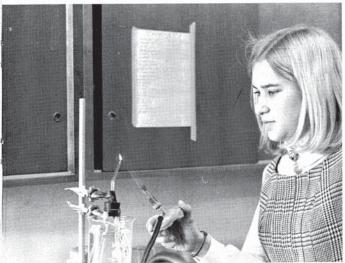

Science not only involves experimentation, but also a certain amount of cleaning up, as Mark Ford learns.

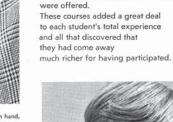

Science Captures Interest, Beckons Study

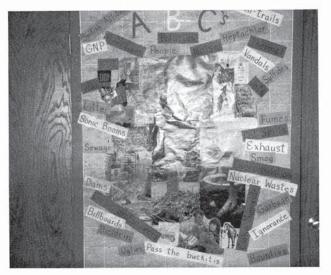

With bunsen burner in hand, Jan Phaller learns the mysteries of science, as she lights a gas.

Chemical catastrophes and biological boo-boos were in abundance as students undertook science courses this year.
Chemistry students went into labs with heads full of thoughts of Dr. Jekyll and Mr. Hyde and usually come out less than excited.
But once they settled down to serious study of the subject, they found that science was not really so terrible when the instructor lent his or her expert assistance.
Physical science, biology, physics, chemistry, anatomy, and physiology

of our time, Roger Bowen, demonstrates his skill.

The science department displays the problems of today through a paper collage in the science hall.

Music Flourishes in Centennial Classrooms

The Girls' Glee Club adds enchantment and beauty to the Christmas program when they perform selections from Benjamin Britten's Ceremony of Caroles.

Hard work was the keynote in the music department this year. Under the direction of Mr. Jerry Loyet the Concert Band and Varsity Band came to life. Their performance was always outstanding at school sporting events and concerts, as a result of long hours of practice. Mr. James Moritz instructed over one hundred students of vocal music. They worked to produce the Varsity Show, Christmas programs and other concerts throughout the year. Music appreciation and music theory was also offered this year for students who had the desire to learn more about the different types of music.

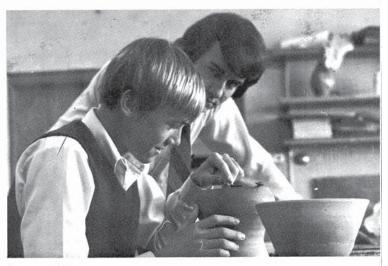

The Marching Chargers prepare for another half-time performance during the football season.

A pleasurable half-time attraction is the Centennial Band as they bring an enjoyable closing to an exciting first half.

Students Find New Freedom Through Art

Students found the art rooms a stimulating environment for creative work. The friendly advice of Mr. Mies, the experienced technique of Mr. Johnson, and the frank openness of Mrs. DeCardy used in teaching, gave art students the freedom to experiment creatively. A variety of activities, ranging from water colors to leathercraft, was offered to the Centennial students. Always, an atmosphere of fruitful freedom was present in classes.

Art instructor, Mr. Mies passes friendly advice about clay onto Murrey Dowell.

Unknowingly caught in action by Judy Lateer, Pam Fuller, and Valerie Matthews, Gary Clements contemplates what he will sketch next.

TLC is applied to a pot by Cathy Schowengerdt.

Learning to file IBM cards is not a very interesting task, but Debbie Criss seems terribly engrossed in the subject as Mrs. Morgan demonstrated the correct procedure.

Business Courses Prepare Students for Careers

Timed writings and IBM keypunch were just two of the headaches endured by students in the business department. But with a few aspirin and the help of a good instructor, the business world of tomorrow learned many important skills. College prep courses such as personal notetaking and personal typing were also offered, giving students a wider scope of knowledge. The Business department gave students a more complete base of experience for a better career tomorrow.

"They tell us during class, if you make a mistake just grit your teeth and smile." repeats Meg Smith after making one of many mistakes.

Home Ec., Ind. Arts Arm Students for Life

Peeking into the oven, Pam Winstead takes a look at the tasty treat she has created.

How often were students and teachers greeted by the delightful aroma of gourmet dishes being prepared in the home economics department? This was just one of the many things done by the home ec. students. Sewing, family living, and child care were also taught. New ideas and designs were always taking shape in the industrial arts department. The emphasis was on the skills of industry, with instruction in subjects such as drafting, electronics metal work and photography.

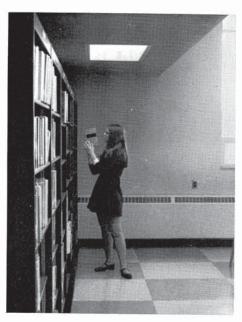

Sunken Library Allures, Educates Students

The library is a center of learning as well as a place for advancement and fulfillment.

Ghosts, amoeba, cowboys and presidents were but a few of the characters that enticed students into the sunken library. As books were taken off the shelves, history, adventure and information travelled into the minds of students. Equipped with over ten thousand volumes of books and two hundred periodicals, Centennial's library was prepared to aid students and faculty in their search for information for a term paper or classroom discussion. A collection of films, filmstrips, records, tapes and microfilms were also available to visually aid the inquirer. The library always offered a quiet place to study or contemplate.

"Maybe if I look at this book long enough he'll notice me," contemplates Kathy Rawdin as she peers into a book.

The dictionary is one of the many necessities of a library, as is evident by its continuous use.

Waiting to talk to his counselor, Scott Higgins impatiently flips through one of the many booklets available in the counseling office.

A secretary's work is never done as Mrs. Moon realizes while making another of the many calls for the counseling office.

After a long and invigorating discussion with her counselor, Marsha Dobson smiles with relief as she stands waiting to leave.

Counselors Offer Valid Solutions for Problems

Student problems were handled deftly by the Centennial counselors. Whether it was a matter of transferring a girl out of a boys' P.E. class or offering advice on jobs and colleges, a counselor was always available to lend a helping hand. With the normal tasks, counselors also organized special programs. They were behind the career showcase programs and arranged for college representatives to come to speak to interested students. In spite of their busy schedules counselors always seemed to be able to find time for one more student, even if he only wanted to chat.

Jumping high hurdles is an invigorating sport as hurdlists James Posey and Theodore Brownlee are finding out.

A tricky back handed shot keeps opponents on their toes during a fast moving volleyball game.

The graceful style of modern dance is displayed by Sue Clark, Corinne Dzuik, and Barb Sprague.

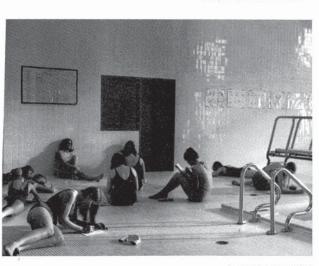

Different System Tried in Girls' Phys. Ed.

With a frog leap into the air Alan Stynchula overcomes his adversaries during a basketball game in phys. ed.

Relaxing after a strenuous game of badminton, Karen Buckner and Mrs. Jandeska are amused by the form of other players.

Centennial's pool area offers a new atmosphere for relaxation and test taking.

Faculty Awareness Stirs Student Enthusiasm

The Junior Humanities class is given an introduction to the techniques of spinning thread by Mrs, Smith.

Smiling, happy, kind and understanding teachers knew when to discipline and when to let students decide what they wanted for an education. Letting individual personalities become a tool to teach an important but perhaps boring subject, teachers let students teach themselves by relating their own experiences to the subject under discussion. An alive, energetic and involved staff showed school spirit by attending games, sponsoring clubs, participating in the annual Varsity Show and teaching. Watching the growth of the student body into unique educated personalities, the staff of 1970 was aware and proud of their importance as teachers and individuals to the students of Centenial.

Sitting at his beloved piano, Mr. Moritz contemplates another attempt to produce a masterpiece.

Teachers Prove Learning Is **Advantageous**

Whether in a noisy classroom or at an organization meeting, students found the Centennial faculty involved with being teachers, 1970. A year of intrigue and challenge was presented to the students by an amply qualified staff. All young in spirit, teachers were able to understand the students' concern and beliefs on the one school proposal, the Viet Nam War, and student demonstrations but were also found effectively presenting opposite or different views. In doing so, teachers allowed students to think for themselves and prepare for the world outside Centennial.

Coaches Macek and Davis needlessly of a Varsity Football game.

Spare Time Offers Relief From Pressures

"I could have sworn there was school today ..." announces a worried Mrs. Anderson to an amused Mrs. Stuckhardt.

After a hard day of coping with the problems of girls' P.E., Mrs. Jandeska and Mrs. Jost relax with an entertaining and amusing card game.

Teachers Not Pictured

"Let's start from the beginning; people in France speak French," explains Mrs. Rosberg.

After a trying day of classes, Mr. Casteel and Mrs. Lindsey lean on lockers for support as they discuss a current problem.

The success and failures of the Sophomore Football team is viewed by the scrutinizing eye of Coach Nelson.

With the assistance of secretaries like Evelyn Cummings, Avis Summers, and Betsy Musgrove, Centennial has become a school to be proud of.

Secretaries Prove to Be Essential

The mass confusion of the first day of a semester or the fright of a visit with a principal was relieved by a friendly smile and an encouraging remark from one of Centennial's secretaries. Always expected to know the answer and always prepared to help, the secretaries sorted mail, checked out books and constantly wrote letters and passes. The seemingly complete organization of Centennial High could not have been possible without the constant efforts of our secretarial staff.

The assistance of Heather Wentling and Helen Beers helps keep the library and audio-visual department in outstanding shape.

Attendance office problems are usually solved by the constant awareness of Margaret Smith and Barbara Eyestone.

CUSTODIANS—Front Row: Bill Witmore, Lindsey Roy, Jesse Watts, Dawson Banks. Back Row: Jack Chanslor, Dave McDowell, Walter Bean, Fred Neal, John Sweet.

Custodians, Cafe Workers Indispensable

Every day without fail, the cafeteria workers cooked nutritious meals for the students and faculty of Centennial. The custodians were equally consistent in the performance of their duties. These difficult and important jobs were performed efficiently to make the work of others easier. Although these thankless jobs were often taken for granted, the manner in which they were performed by the service staffs was appreciated by all.

CAFETERIA WÖRKERS-Front Row: Rose Downing, Oval Dunwoodie, Joyce Millage, Margarett Dean, Lena Dubson, Betty Pierce. Back Row: Evelyn Molen, Helen Squires, Leila Merritt, Stella Munds, Mona Varga, Olive King, Georgana Warner.

Administration Grants Unique Privileges

Elated over the liberalization of the dress code, Carole Fridrich informally chats with Dr. Longenecker about the advantages of slacks.

Prior to this year,
no girl would come to school
with slacks on without fear
of being sent to the principal's office.
But this year, students presented
petitions in favor of slacks and the
administration joined in the crusade.
With the coming of slacks,
Dr. Richard Longenecker and his staff
were able to settle down
to their usual routines
of checking attendance,
helping plan assemblies,
and, in general,
running Centennial.
Once again the administrators
turned their ears towards
the students' requests
and, for the first time,
they granted seniors the use
of a student lounge.
Through the grants of
slack and lounge privileges,
the administration showed
their concern for the student body.
Each principal was sincere in his effort
to make Centennial
a worthwhile foundation of education.

In a new position this year, Mr. Stu Jenkins met the challenges of an assistant principal at Centennial,

Cleveland Hammonds, Assistant Superintendent of Personnel, selects personnel with ability and integrity.

School Board Stirs Interest in Community

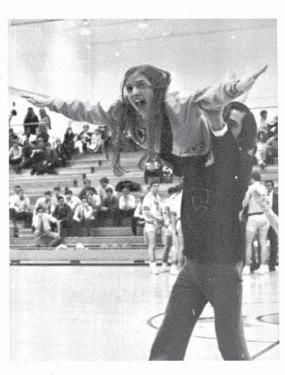

During the '69-'70 school year the Unit 4 Administrators were Unit 4 Administrators were faced with new problems and some of the old ones. The dilemma of making room for more students brought the addition of mobile classrooms between Jefferson Junior High and Centennial High which gave rise to varied comments. The Board of Education this year undertook a study which will determine whether or not two high schools should continue or whether academically and economically one high school would better serve the students. They proved themselves to be quite capable of handling all the responsibilities that were given to them.

difficult job of selecting the right curriculum is held by the Assistant at of Instruction, Dr. Arthur Turner.

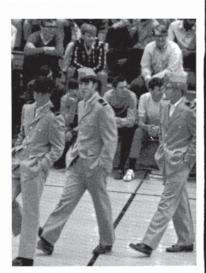

The Assistant Superintendent of Business, George P. Hankinson, finds the business of Unit 4 challenging.

Above: During one of their many cheers, Jack Roscoe and Rita Forrester display the sgility and unique style that go along with Centennial cheerleaders. Above Right: The element of dance found in many Centennial organizations is portrayed by an Orchesis member during Spectrum. Right: At our homecoming assembly, Interact put on a skit displaying the defeat of MacArthur by exhibiting the excruciating death of these Generals. Center Right: The powerfulness of the music organizations is exemplified in the beat of a single drum. Far Right: The combined efforts of the band and the choirs brings an enchanting end to a night filled with beautiful music.

CENTURIAN Staff Exhibits Uniqueness

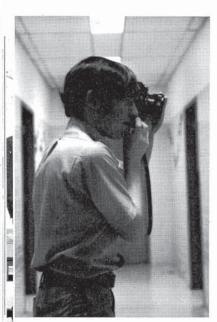

A perplexing problem is given a solution by co editor-in-chief, Sue Ignasiak.

Thinking of captions was a source of exaspiration and amusement for co editor-in-chief, Patti Stone.

Hard work, imagination and creativity were in demand as the CENTURIAN staff began the difficult task of putting a yearbook together. Time always seemed to pass most quickly when a deadline was close at hand. And although thousands of pictures were taken, the right one was hard to find; and once found, it was quite another thing to think of a suitable caption. "Friction" was a quality present in the tiny confines of room 241, where the CENTURIAN staff worked, and frequently goofed. When the sports editor wasn't complaining about his lack of pictures, he was "knirping" on someone. And it was all anyone could do to get the copy editor to write. But there were mostly good times, especially after deadlines were met and everyone could end. "for awhile."

The hall is filled with potential pictures as Vince Boston captures another scene.

Correct typing technique, a necessity for CENTURIAN staff members, is practiced by copy editor Olivia Carter.
